

Credit Suisse

Structured Products Programme for the issuance of Notes, Certificates and Warrants

Under the Structured Products Programme described in this Base Prospectus, Credit Suisse (the “**Issuer**”) may issue Notes, Certificates or Warrants (“**Securities**”) on the terms set out herein and in the relevant Final Terms. The Issuer shall, if so specified in the relevant Final Terms, act for the purpose of the relevant Securities through its London Branch, Nassau Branch, Singapore Branch or Guernsey Branch as specified in such Final Terms.

This document constitutes a base prospectus (the “**Base Prospectus**”) prepared for the purposes of Article 5.4 of Directive 2003/71/EC (the “**Prospectus Directive**”). The Base Prospectus contains information relating to the Securities. The Base Prospectus shall be read in conjunction with the documents incorporated herein by reference (see the section entitled “Documents Incorporated by Reference”).

This document has been filed with the Financial Services Authority in its capacity as competent authority under the UK Financial Services and Markets Act 2000 (the “**UK Listing Authority**”) for the purposes of the Prospectus Directive.

The final terms relevant to an issue of Securities will be set out in a final terms document (the “**Final Terms**”) which will be provided to investors and, where so required under the Prospectus Directive, filed with the UK Listing Authority and made available free of charge to the public at the registered office of the Issuer and at the offices of the relevant Distributors and Paying Agents.

Application has been made to the UK Listing Authority under the Financial Services and Markets Act 2000 (“**FSMA**”) for Securities issued under this Base Prospectus during the period of 12 months from the date of this Base Prospectus to be admitted to the Official List of the UK Listing Authority and to the London Stock Exchange plc for such Securities to be admitted to trading on the London Stock Exchange’s Regulated Market. However, Securities may also be listed and admitted to trading on such other or further regulated market(s) for the purposes of the Markets in Financial Instruments Directive 2004/39/EC, as may be agreed between the Issuer and the relevant Dealers. Unlisted Securities may also be issued by the Issuer. The relevant Final Terms in respect of an issue of Securities will specify if an application will be made for such Securities to be listed on and admitted to trading.

Prospective investors should have regard to the factors described under the section headed “Risk Factors” in this Base Prospectus.

Any person (an “**Investor**”) intending to acquire or acquiring any Securities from any person (an “**Offeror**”) should be aware that, in the context of an offer to the public as defined in section 102B of FSMA, the Issuer may only be responsible to the Investor for this Base Prospectus under section 90 of FSMA if the Issuer has authorised the Offeror to make the offer to the Investor. Each Investor should therefore enquire whether the Offeror is so authorised by the Issuer. If the Offeror is not so authorised by the Issuer, the Investor should check with the Offeror whether anyone is responsible for this Base Prospectus for the purposes of section 90 of FSMA in the context of the offer to the public, and, if so, who that person is. If the Investor is in any doubt about whether it can rely on this Base Prospectus and/or who is responsible for its contents, it should take legal advice. **Where information relating to the terms of the relevant offer required pursuant to the Prospectus Directive is not contained in this Base Prospectus or the relevant Final Terms, it will be the responsibility of the relevant Offeror at the time of such offer to provide the Investor with such information.** This does not affect any responsibility which the Issuer may otherwise have under applicable laws.

This Base Prospectus constitutes a base prospectus for the purposes of Article 5.4 of the Prospectus Directive for the purpose of giving information with regard to the Issuer and the Securities which, according to the particular nature of the Issuer and the Securities, is necessary to enable investors to make an informed assessment of the assets and liabilities, financial position, profit and losses and prospects of the Issuer and of the rights attached to the Securities.

The Issuer accepts responsibility for the information contained in this document. To the best of the knowledge and belief of the Issuer having taken all reasonable care to ensure that such is the case, the information contained in this document is in accordance with the facts and does not omit anything likely to affect the import of such information.

The previous paragraph should be read in conjunction with paragraph 7 on the first page of this Base Prospectus.

The delivery of this document at any time does not imply that any information contained herein is correct at any time subsequent to the date hereof.

The Issuer will not be providing any post issuance information in relation to the Securities. Where required pursuant to Article 16 of the Prospectus Directive, the Issuer will publish a supplement to this Base Prospectus.

In connection with the issue and sale of the Securities, no person is authorised to give any information or to make any representation not contained in the Base Prospectus or the relevant Final Terms, and the Issuer does not accept responsibility for any information or representation so given that is not contained within the Base Prospectus. Neither the Base Prospectus nor any Final Terms may be used for the purposes of an offer or solicitation by anyone, in any jurisdiction in which such offer or solicitation is not authorised, or to any person to whom it is unlawful to make such offer or solicitation and no action is being taken to permit an offering of the Securities or the distribution of the Base Prospectus or any Final Terms in any jurisdiction where any such action is required except as specified herein.

The distribution of this Base Prospectus and the offering or sale of the Securities in certain jurisdictions may be restricted by law. Persons into whose possession this document comes are required by the Issuer to inform themselves about, and to observe, such restrictions.

The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the “**Securities Act**”) and may be subject to U.S. tax law requirements. Subject to certain exemptions, the Securities may not be offered, sold or delivered within the United States of America or to, or for the account or benefit of, U.S. persons. A further description of the restrictions on offers and sales of the Securities in the United States or to U.S. persons is set out below under “Selling Restrictions”.

If the Securities constitute “derivative securities” for the purposes of the Prospectus Directive or have a derivative component in any interest payment and have a denomination of less than EUR 50,000 (or its equivalent) or can be acquired for less than EUR 50,000 per Security, the Issuer will, where so required under the Prospectus Directive, prepare a supplement to this Base Prospectus as required by Article 16 of the Prospectus Directive or will prepare a new prospectus relating to such Securities which may incorporate all or part of this Base Prospectus by reference in order to give any additional information required by the Prospectus Directive in relation to the derivative element of those Securities.

SUMMARY

This summary must be read as an introduction to this Base Prospectus and any decision to invest in the Securities should be based on a consideration of the Base Prospectus as a whole, including the documents incorporated by reference. No civil liability in respect of this summary will attach to the Issuer in any Member State of the European Economic Area in which the relevant provisions of the Prospectus Directive (Directive 2003/71/EC) have been implemented unless this summary, including any translation thereof, is misleading, inaccurate or inconsistent when read together with the other parts of this Base Prospectus. Where a claim relating to the information contained in this Base Prospectus is brought before a court in such a Member State, the plaintiff may, under the national legislation of that Member State, be required to bear the costs of translating the Base Prospectus before the legal proceedings are initiated.

Description of the Issuer

On 13 May 2005, the two Swiss bank legal entities Credit Suisse and Credit Suisse First Boston merged. The merged bank operating under the name "Credit Suisse" (the "**Issuer**"), is a Swiss bank and joint stock corporation established under Swiss law and is a wholly owned subsidiary of the Credit Suisse Group AG ("**CSG**"). The Issuer formed the basis for the integration of the banking business. The newly integrated global bank was launched on 1st January 2006. It operates under a new single Credit Suisse brand. The structure of the Issuer is described below.

The Issuer is a global financial services company domiciled in Switzerland. Since 2006, the Issuer's activities have been operated and managed in three operating segments. The information in and incorporated by reference into this Base Prospectus reflects that operational and management structure.

In Private Banking, the Issuer offers a broad range of banking solutions and comprehensive advice to private, corporate and institutional clients. Private Banking comprises two major businesses: Wealth Management and Corporate & Retail Banking.

In Wealth Management, the Issuer provides customised solutions in protecting, optimising and financing clients' wealth. The Issuer runs one of the largest private banking organisations globally, with CHF 646 billion of assets under management as of the end of 2008. The Issuer serves its clients through two brands: Credit Suisse and Clariden Leu, Credit Suisse's independent private bank. Clariden Leu is a leading provider of private banking services, mainly in Switzerland, with total assets under management of CHF 94 billion as of the end of 2008. The Issuer serves its international clients through a global network of 3,500 dedicated relationship managers, organised by region, markets and client segment (for example, ultra-high-net-worth individuals and entrepreneurs). Relationship managers are supported by a broad range of dedicated product specialists. As of the end of 2008, the Issuer was present in almost 200 locations, with 123 offices outside Switzerland in 45 countries.

In Corporate & Retail Banking, the Issuer provides premium advice and solutions for financing, investment and retirement planning to private clients and a broad range of corporate banking services to corporate and institutional clients in Switzerland. The Issuer serves its clients through 220 branches in Switzerland, four regional contact centres and "Direct Net," an online banking platform. Small and medium-sized enterprises are served by relationship managers based in 40 branches throughout Switzerland and a central business centre. The Issuer's regional bank, Neue Aargauer Bank, serves clients in the Canton of Aargau. The consumer finance company, BANK-now, is a specialised supplier of private credit offerings and car leasing in the Swiss market through various distribution channels.

As of 31 December 2008, Private Banking had assets under management of CHF 788.9 billion.

In Investment Banking, the Issuer provides a broad range of financial products and services, including global securities sales, trading and execution, prime brokerage and capital raising and advisory services, as well as comprehensive investment research.

The Issuer's comprehensive portfolio of products and services is aimed at the needs of the most sophisticated clients. The Issuer increasingly uses integrated platforms to ensure efficiency and transparency. The Issuer's activities are organised around two broad functional areas: investment banking and global securities.

In Investment Banking, the Issuer works in industry, product and country groups. The industry groups include energy, financial institutions, financial sponsors, industrial and services, healthcare, media and telecom, real estate and technology. The product groups include mergers and acquisitions and financing products. In global securities, the Issuer engages in a broad range of activities across fixed income, currencies, commodities, derivatives and cash equities markets, including sales, structuring, trading, financing, prime brokerage, syndication and origination, with a focus on client-based and flow-based businesses, in line with growing client demand for less complex and more liquid products and structures.

In Asset Management, the Issuer offers investment solutions and services to clients globally, including governments, institutions, corporations and individuals. The Issuer provides access to a wide range of investment classes, building on its global strengths in alternative investments and traditional investment strategies. With more than 200 investment professionals located in Zurich, New York, Los Angeles, London, Frankfurt, Hong Kong, Singapore, Mumbai, Tokyo and Sydney, the Issuer focuses on providing maximum returns within the investors' criteria, while maintaining a controlled risk profile, adherence to compliance and best execution.

As of 31 December 2008, Asset Management had assets under management of CHF 411.5 billion.

Description of the Securities

The amount payable in respect of Securities may be linked to the performance or evolution of one or more shares, depositary receipts, equity indices, commodities, commodity indices, exchange rates, exchange rate indices, inflation indices, interest rate indices and/or other variables ("**Underlying Assets**").

Notes

The Securities are debt securities issued by the Issuer. In relation to the Securities the Issuer will, if so specified in the Final Terms, act through the branch specified in the Final Terms. The currency of denomination, the denomination and the maturity date will be specified in the Final Terms.

Unless redeemed by instalments (if so specified in the Final Terms) the Securities will be redeemed on the Maturity Date specified in the Final Terms and may not (unless a call or put option is specified in the Final Terms) be redeemed before then except for reasons of default by the Issuer or the illegality of the Issuer's payment obligations or hedging arrangements or following certain events in relation to Underlying Assets. The amount payable on the Maturity Date may either be the outstanding principal amount or may be indexed to one or more Underlying Assets (as described below).

The Securities may bear interest and/or premium at a fixed rate or at different fixed rates for different periods or may bear interest at one or more fixed rates followed by a period in which they bear a floating rate of interest or may bear a floating rate of interest throughout the term of the Securities. Alternatively, they may bear no interest and/or premium. In the case of floating rate interest, the rate will be reset periodically by reference to a reference rate specified in the Final Terms and may be at such rates or at a margin above or below such rates and may be subject to one or more maximum and/or minimum rates of interest and/or premium, all as specified in the Final Terms.

Certificates

Certificates entitle the holder to payment on the Redemption Date of the Redemption Amount and may be linked to the level or price of one or more Underlying Assets. If so specified in the Final Terms, there may also be interim payments and/or mandatory early redemption and/or redemption at the option of the Issuer and/or the holders. Otherwise they may only be redeemed before the Redemption Date for reasons of illegality of the Issuer's payment obligations or hedging arrangements or following certain events in relation to Underlying Assets.

Warrants

Warrants entitle the holder to payment of a Settlement Amount either following the Expiration Date (in the case of European style Warrants) or the relevant Exercise Date (in the case of American style Warrants). The Settlement Amount will be linked to the level or price of one or more Underlying Assets. They may only be redeemed before the Expiration Date for reasons of illegality of the Issuer's payment obligations or hedging arrangements or following certain events in relation to Underlying Assets.

Adjustments and Substitution

The terms and conditions of the Securities contain provisions dealing with non-business days, disruptions and adjustments which may affect the Underlying Assets and/or the Securities and the timing and calculation of payments and may result in the Securities being redeemed earlier than they might otherwise be redeemed. They also allow for the possibility of the substitution of the Issuer without the consent of the Securityholders with an affiliate of the Issuer provided that such affiliate has, or is guaranteed by an affiliate which has, a long-term unsecured debt rating equal to or higher than that of the Issuer.

Risk Factors

Risks Relating to the Securities

Securities are obligations of the Issuer. Securityholders are exposed to the credit risk of the Issuer.

A secondary market for the Securities may not develop and may not be liquid. A decrease in liquidity may increase volatility which may reduce the value of Securities. Investors must be prepared to hold Securities until their redemption or expiry. The Issuer may, but is not obliged to, purchase Securities at any time at any price and may hold, resell or cancel them. The only way in which holders can realise value from a Security prior to its maturity or expiry (other than in the case of an American style Warrant) is to sell it at its then market price in the market, which may be less than the amount initially invested. The price in the market for a Security may be less than its issue price even though the value of any Underlying Asset may not have changed since the issue date. If Warrants are exercised, the number of Warrants remaining will decrease, resulting in diminished liquidity for the remaining Warrants.

Call options of the Issuer in respect of Securities may negatively impact their market value and investors may not be able to reinvest the redemption proceeds at an interest rate as high as the expected rate of return on the Securities being redeemed.

Where Securities are linked to Underlying Assets, if certain events occur in relation to an Underlying Asset and it determines that it is unable to make an appropriate adjustment to the terms of the Securities, the Issuer may redeem the Securities at their fair market value.

Changes in market interest rates may adversely affect the value of fixed rate Securities and the rate of interest on floating rate Securities.

There will be a time lag between the exercise of Warrants by the Warrantholder and the determination of the Settlement Amount. The prices or levels of the relevant Underlying Assets could change significantly during such time and decrease the Settlement Amount or reduce it to zero.

In certain circumstances the Issuer may make adjustments to the terms of the Securities (including substituting Underlying Assets) or redeem or cancel them at their fair market value as determined by it without the consent of the Securityholders.

In making calculations and determinations, the Issuer is required to act in good faith and in a commercially reasonable manner but does not have any obligations of agency or trust for any investors and has no fiduciary obligations towards them. In particular the Issuer and its affiliated entities may have interests in other capacities (such as other business relationships and activities).

If the amount payable on the Securities is less than their issue price, investors may lose all or part of their investment.

Where amounts of payments under Securities are linked to Underlying Assets, an investment in the Securities is not the same as an investment in the Underlying Assets or any securities comprised in a relevant index or an investment which is directly linked to any of them. In particular, investors will not benefit from any dividends unless the relevant equity index is a total return index.

The levels or prices of Underlying Assets (and of securities or other components comprised in an index) may go down or up. Such fluctuations may affect the value of the Securities. Furthermore, the levels or prices at any specific date may not reflect their prior or future performance or evolution. There can be no assurance as to the future performance or evolution of any Underlying Asset. The Securities may involve complex risks, including share price, credit, commodity, foreign exchange, interest rate, political, inflation and/or issuer risks.

If the Securities are linked to an Underlying Asset which involves emerging market countries there may be additional risks, including event, market, liquidity, regulatory, settlement and holder risks and investors should note that the risk of occurrence and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries.

The amount payable which is referable to an Underlying Asset to which "**Jurisdictional Event**" is specified to be applicable may be reduced if the value of the proceeds of the Issuer's and/or its affiliates' hedging arrangements in relation to that Underlying Asset are reduced as a result of various matters (each described as a Jurisdictional Event) relating to risks connected with the relevant country or countries specified in the Final Terms.

Where an Underlying Asset is an index (a "**Proprietary Index**") composed by the Issuer or one of its affiliates (the "**Index Creator**"), the rules of the index may be amended by the Index Creator. No assurance can be given that any such amendment would not be prejudicial to Securityholders. None of the Issuer, the Index Creator or the relevant publisher is obliged to publish any information regarding a Proprietary Index other than as stipulated in its rules. The Issuer and the Index Creator are affiliated entities and may face a conflict of interest between their obligations as Issuer and Index Creator, respectively, and their interests in another capacity.

The level and basis of taxation on the Securities and on the Securityholders and any reliefs from such taxation depend on the Securityholders' individual circumstances and could change at any time. This could have adverse consequences for Securityholders. Potential Securityholders will therefore need to consult their own tax advisers to determine the specific tax consequences of the purchase, ownership, transfer and redemption or enforcement of the Securities.

The Securities may be linked to the performance of specific commodity indices. As a result of rollover gains/costs that have to be taken into account within the calculation of such indices and under certain market conditions, such indices may outperform or underperform the underlying commodities contained in such indices. Furthermore, the prices of the underlying commodities may be referenced by the price of the current futures contract or active front contract and rolled into the following futures contract before expiry. The price of the Securities during their lifetime and at maturity is, therefore, sensitive to

fluctuations in the expected futures prices and can substantially differ from the spot price of the commodities. Commodities strongly depend on supply and demand and are subject to increased price fluctuations. Such price fluctuations may be based (among others) on the following factors: perceived shortage of the relevant commodity, weather damage, loss of harvest, governmental intervention or political upheavals.

Before making any investment decision with respect to the Securities, investors should consult their own financial, tax or other advisers as they consider appropriate and carefully review and consider such an investment decision in the light of the foregoing and their personal circumstances.

Risks Relating to the Issuer

The general risk management policy of the Issuer is consistent with equivalent functions of other Credit Suisse Group AG entities. The Issuer believes that it has effective procedures for assessing and managing risks associated with its business activities.

The Issuer cannot completely predict all market and other developments and the Issuer's risk management cannot fully protect against all types of risk.

RISK FACTORS

General

These risk factors should be read together with the risk factors listed on pages 9 and 715-722 (*Annual Report 2008*) of the Registration Document. Such risk factors are risk factors that are material to the Securities in order to assess the market risk associated with them or which may affect the Issuer's ability to fulfil its obligations under them.

This Base Prospectus identifies the information that an investor should consider prior to making an investment in Securities. The Issuer is acting solely in the capacity of an arm's length contractual counterparty and not as an investor's financial adviser or fiduciary in any transaction.

An investment in Securities is only suitable for investors who (either alone or in conjunction with an appropriate financial adviser) are capable of evaluating the merits and risks of such an investment and who have sufficient resources to be able to bear any losses that may result therefrom.

Before making any investment decision with respect to the Securities, investors should consult their own financial, tax or other advisers as they consider appropriate and carefully review and consider such an investment decision in the light of the following factors and their personal circumstances.

Credit Risk

Securities are obligations of the Issuer. Securityholders are exposed to the credit risk of the Issuer.

Limited Liquidity

There can be no assurance that a secondary market for any of the Securities will develop, or, if a secondary market does develop, that it will provide the holders of the Securities with liquidity or that it will continue for the life of the Securities. A decrease in the liquidity of an issue of Securities may cause, in turn, an increase in the volatility associated with the price of such issue of Securities. Illiquidity may have a severely adverse effect on the market value of Securities.

Any investor in the Securities must be prepared to hold such Securities for an indefinite period of time or until redemption or expiry of the Securities. The Issuer may, but is not obliged to, purchase Securities at any time at any price in the open market or by tender or private treaty and may hold, resell or cancel them. The market for Securities may be limited. The only way in which a holder can realise value from a Security prior to its maturity or expiry (other than in the case of an American style Warrant) is to sell it at its then market price in the market which may be less than the amount initially invested. The price in the market for a Security may be less than its issue price even though the value of any Underlying Asset may not have changed since the issue date. To the extent that Warrants of a particular issue are exercised, the number of Warrants remaining outstanding will decrease, resulting in a diminished liquidity for the remaining Warrants.

Optional Redemption by the Issuer

Any call option of the Issuer in respect of the Securities may negatively impact their market value. During any period when the Issuer may elect to redeem Securities, the market value of those Securities generally will not rise substantially above the price at which they can be redeemed. This also may be true prior to any redemption period. The Issuer may be expected to redeem Securities when its cost of borrowing is lower than the interest rate on the Securities. At those times, an investor generally would not

be able to reinvest the redemption proceeds at an effective interest rate as high as the interest rate on the Securities being redeemed.

Where Securities are linked to Underlying Assets, if certain events occur in relation to an Underlying Asset and it determines that it is unable to make an appropriate adjustment to the terms of the Securities, the Issuer may redeem the Securities at their fair market value.

Interest Rate Risks

Where Securities bear interest at a fixed rate, subsequent changes in market interest rates may adversely affect the value of the Securities.

Where interest on Securities is subject to floating rates of interest that will change subject to changes in market conditions, such changes could adversely affect the rate of interest received on the Securities.

Currency Risk

Investors may be exposed to currency risks because (i) the Underlying Assets may be denominated or priced in currencies other than the currency in which the Securities are denominated or (ii) the Securities and/or the Underlying Assets may be denominated in currencies other than the currency of the country in which the investor is resident. The value of the Securities may therefore increase or decrease as a result of fluctuations in those currencies.

Warrants

Warrants involve complex risks which may include interest rate, share price, commodity, foreign exchange, inflation, time value and/or political risks. Investors should recognise that their Warrants may expire worthless. They should be prepared to sustain a total loss of the purchase price of the Warrants. This risk reflects the nature of a Warrant as an asset which, other factors held constant, tends to decline in value over time and which may become worthless when it expires. Assuming all other factors are held constant, the more a Warrant is "out-of-the-money" and the shorter its remaining term to expiration, the greater the risk that purchasers of such Warrants will lose all or part of their investment.

The risk of the loss of some or all of the purchase price of a Warrant upon expiration means that, in order to recover and realise a return upon the investment, a purchaser of a Warrant must generally be correct about the direction, timing and magnitude of an anticipated change in the value of the Underlying Asset. With respect to European-style Warrants, the only way in which a holder can realise value from the Warrant prior to the Exercise Date in relation to such Warrant is to sell it as its then market price in an available secondary market.

The Settlement Amount determined in respect of any Warrants exercised at any time prior to expiration is typically expected to be less than the value that can be realised from the Warrants if such Warrants are sold at their then market price in an available secondary market at that time. The difference between the market price value and the determined Settlement Amount will reflect, among other things, a "time value" for the Warrants. The "time value" of the Warrants will depend partly upon the length of the period remaining to expiration and expectations concerning the value of the Underlying Asset, as well as by a number of other interrelated factors, including those specified herein.

Before exercising or selling Warrants, Warrantholders should carefully consider, among other things, (i) the trading price of the Warrants, (ii) the value and volatility of the Underlying Asset, (iii) the time remaining to expiration, (iv) the probable range of Settlement Amounts, (v) any change(s) in interim interest rates and relevant dividend yields, (vi) any change(s) in currency exchange rates, (vii) the depth

of the market or liquidity of the securities comprised in any relevant equity index and (ix) any related transaction costs.

In the case of the exercise of Warrants, there will be a time lag between the giving by the Warrantholder of instructions to exercise and the determination of the Settlement Amount. It could be extended, particularly if there are limitations on the maximum amount of Warrants that may be exercised on one day. The prices or levels of the relevant Underlying Assets could change significantly during such time lag and decrease the Settlement Amount or reduce it to zero.

If so indicated in the relevant Final Terms, the Issuer may limit the number of Warrants which may have the same Valuation Date (other than on the Expiration Date). In such event, the Valuation Date of Warrants forming the excess over the relevant maximum amount may be postponed.

Conflicts of Interest

In making calculations and determinations with regard to the Securities, there may be a difference of interest between the investors and the Issuer. The Issuer is required to act in good faith and in a commercially reasonable manner but does not have any obligations of agency or trust for any investors and has no fiduciary obligations towards them. In particular the Issuer and its affiliated entities may have interests in other capacities (such as other business relationships and activities).

Loss of investment

If the amount payable on redemption, exercise or expiry of the Securities is less than their issue price, investors may lose all or part of their investment.

Adjustments and Early Redemption or Cancellation

In certain circumstances the Issuer may make adjustments to the terms of the Securities (including substituting Underlying Assets) or redeem or cancel them at their fair market value as determined by it without the consent of the Securityholders.

Securities linked to other Assets

Where the amounts of payments under Securities are linked to the performance or evolution of shares, depositary receipts, equity indices, commodities, commodity indices, exchange rates, exchange rate indices, inflation indices, interest rate indices and/or other variables (“**Underlying Assets**”) an investment in the Securities is not the same as an investment in any or all of the Underlying Assets or any securities comprised in a relevant equity index or an investment which is directly linked to any of them. In particular, investors will not benefit from any dividends unless the relevant equity index is a total return index.

The levels or prices of Underlying Assets (and of securities or other components comprised in an index) may go down as well as up throughout the term of the Securities. Such fluctuations may affect the value of the Securities. Furthermore, the levels or prices at any specific date may not reflect their prior or future performance or evolution. There can be no assurance as to the future performance or evolution of any Underlying Asset. Accordingly, before investing in the Securities, investors should carefully consider whether any investment linked to the relevant Underlying Assets is suitable for them.

Such Securities may involve complex risks, which include, among other things, share price risks, credit risks, commodity risks, foreign exchange risks, interest rate risks, political risks, inflation risks and/or issuer risks. If the Securities are linked to an Underlying Asset which involves emerging market countries there may be additional risks, including event, market, liquidity, regulatory, settlement and holder risks

and investors should note that the risk of occurrence and the severity of the consequences of the matters described herein may be greater than they would otherwise be in relation to more developed countries.

The amount payable which is referable to an Underlying Asset to which “Jurisdictional Event” is specified to be applicable may be reduced if the value of the proceeds of the Issuer’s hedging arrangements in relation to that Underlying Asset are reduced as a result of various matters (each described as a Jurisdictional Event) relating to risks connected with the relevant country or countries specified in the Final Terms.

Where the Underlying Asset is a basket of shares which includes depositary receipts, investors should consult the relevant deposit agreement for the rights attaching to those depositary receipts, which may be different from the rights attaching to the shares themselves. In particular, depositary receipts may not get the benefit of any dividend paid on the shares.

Where an Underlying Asset is an index (a “**Proprietary Index**”) composed by the Issuer or one of its affiliates (the “**Index Creator**”), the rules of the index may be amended by the Index Creator. No assurance can be given that any such amendment would not be prejudicial to Securityholders. The value of a Proprietary Index is published subject to the provisions in the rules of the index. None of the Issuer, the Index Creator or the relevant publisher is obliged to publish any information regarding such index other than as stipulated in the rules of the index. The Index Creator may enter into licensing arrangements with investors pursuant to which the investor in question can obtain further and more detailed information, such as the constituent stocks, against payment of licensing fees and typically subject to a time lag. It is expected that only large professional investors will enter into such licensing arrangements.

The Issuer and the Index Creator are affiliated entities and may face a conflict of interest between their obligations as Issuer and Index Creator, respectively, and their interests in another capacity. No assurance can be given that the resolution of such potential conflicts of interest may not be prejudicial to the interests of Securityholders.

The Securities may be linked to the performance of specific commodity indices. As a result of rollover gains/costs that have to be taken into account within the calculation of such indices and under certain market conditions, such indices may outperform or underperform the underlying commodities contained in such indices. Furthermore, the prices of the underlying commodities may be referenced by the price of the current futures contract or active front contract and rolled into the following futures contract before expiry. The price of the Securities during their lifetime and at maturity is, therefore, sensitive to fluctuations in the expected futures prices and can substantially differ from the spot price of the commodities. Commodities strongly depend on supply and demand and are subject to increased price fluctuations. Such price fluctuations may be based (among others) on the following factors: perceived shortage of the relevant commodity, weather damage, loss of harvest, governmental intervention or political upheavals.

Tax

The level and basis of taxation on the Securities and on the Securityholders and any reliefs from such taxation depend on the Securityholder’s individual circumstances and would change at any time. The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for Securityholders. Potential Securityholders will therefore need to consult their own tax advisers to determine the specific tax consequences of the purchase, ownership, transfer and redemption or enforcement of the Securities.

USE OF PROCEEDS

Unless otherwise specified in the Final Terms, the net proceeds from each issue of Securities will be used to hedge the obligations of the Issuer under the Securities and for general corporate purposes. If in respect of any particular issue there is a particular identified use, this will be stated in the Final Terms. The net proceeds will be utilised outside Switzerland if the Securities are issued through a branch.

GENERAL TERMS AND CONDITIONS OF NOTES (English law)

The following is the text of the general terms and conditions that, together with any applicable Asset Terms and subject to the provisions of the relevant Final Terms, shall be applicable to Securities for which the relevant General Terms and Conditions are specified in the Final Terms as being those of “Notes – English law”. References in the Conditions to “Securities” are to the Securities of one series only, not to all Securities that may be issued under the Programme. Definitions used in these General Terms and Conditions shall not apply in relation to any of the other General Terms and Conditions contained in this Base Prospectus.

The Securities (which expression shall include any Securities issued pursuant to General Condition 11) are issued pursuant to an agency agreement (as amended or supplemented from time to time, the “**Agency Agreement**”) between the Issuer, The Bank of New York Mellon, acting through its London Branch (or such other entity as may be specified in the Final Terms) as fiscal agent and the other agents named in it and with the benefit of a deed of covenant (as amended or supplemented as at the Issue Date, the “**Deed of Covenant**”) executed by the Issuer in relation to the Securities. The fiscal agent, the paying agents, the registrar, the transfer agents and the calculation agent(s) for the time being (if any) are referred to below respectively as the “**Fiscal Agent**”, the “**Paying Agents**” (which expression shall include the Fiscal Agent, the “**Registrar**”, the “**Transfer Agents**” and the “**Calculation Agent(s)**” and together with any other agents specified in the Final Terms, the “**Agents**”). The Securityholders (as defined in General Condition 1) are deemed to have notice of all of the provisions of the Agency Agreement applicable to them.

The “Co-Structurer”, if any, shall be the institution specified in the Final Terms.

Copies of the Agency Agreement and the Deed of Covenant are available for inspection at the specified offices of each of the Paying Agents, the Registrar and the Transfer Agents.

Securities are subject to these General Conditions, as modified and/or supplemented by the relevant Asset Terms, any specific terms required by relevant Clearing Systems, stock exchanges or other relevant authorities and the relevant final terms (the “**Final Terms**”) relating to the relevant Securities (together, the “**Conditions**”).

Expressions used herein and not defined shall have the meaning given to them in the relevant Final Terms. In the event of any inconsistency between the General Conditions or the Asset Terms and the Final Terms, the Final Terms will prevail.

Except in relation to General Conditions 8, 10 and 16 references herein to the Issuer shall, if the Final Terms specify that the Issuer is acting through a branch (the “**Branch**”), be to the Issuer acting through such branch.

Where determinations or calculations are required to be made by the Issuer, the Issuer may delegate the performance of such determinations and/or calculations to a Calculation Agent on its behalf. In such event the relevant references to the Issuer shall be construed as references to such Calculation Agent.

1 Form, Denomination and Title

The Securities are issued in bearer form (“**Bearer Securities**”) or in registered form (“**Registered Securities**”) in each case with a nominal amount (the “**Nominal Amount**”) equal to the Specified Denomination(s) specified in the Final Terms.

All Registered Securities shall have the same Specified Denomination.

Bearer Securities are represented by a bearer global security (a “**Global Security**”). No definitive Bearer Securities will be issued.

Where Registered Securities are held by or on behalf of one or more Clearing Systems, a global certificate (a “**Global Certificate**”) will be issued in respect of them. Certificates in respect of Registered Securities will not otherwise be issued.

Title to the Global Security shall pass by delivery. Title to the Registered Securities shall pass by registration in the register that the Issuer shall procure to be kept by the Registrar in accordance with the provisions of the Agency Agreement (the “**Register**”). Except as ordered by a court of competent jurisdiction or as required by law, the holder (as defined below) of any Security shall be deemed to be and may be treated as its absolute owner for all purposes, whether or not it is overdue and regardless of any notice of ownership, trust or an interest in it, any writing on it or its theft or loss and no person shall be liable for so treating the holder.

For so long as any of the Securities is represented by a Global Security or a Global Certificate held by or on behalf of one or more clearing systems specified in the Final Terms (each a “**Clearing System**”), each person (other than one Clearing System to the extent that it appears on the books of another Clearing System) who is for the time being shown in the records of the relevant Clearing System as the holder of a particular nominal amount of such Securities or, in the case of Securities held through Monte Titoli, each person whose name appears as being entitled to a Security in the books of a financial intermediary (an Italian bank, banker or agent authorised to maintain rewritten accounts on behalf of its clients) (an “**Account Holder**”) who is entitled to such Security according to the books of Monte Titoli, (in which regard any certificate or other document issued by the relevant Clearing System or Account Holder as to the nominal amount of such Securities standing to the account of any person shall be conclusive and binding for all purposes save in the case of manifest error) shall be treated by the Issuer and each Agent as the holder of such nominal amount of such Securities for all purposes other than with respect to the right to payment on such nominal amount of such Securities, the right to which shall be vested, as against the Issuer and any Agent, solely in the bearer of the relevant Global Security or the person in whose name the Registered Security is registered in accordance with and subject to its terms (and the expressions “**Securityholder**” and “**holder**” of Securities and related expressions shall be construed accordingly). Rights in respect of Securities which are held by or on behalf of a Clearing System will be transferable only in accordance with the rules and procedures for the time being of the relevant Clearing System and, if so specified in the Final Terms, will be subject to a Minimum Trading Lot specified in the Final Terms.

Any reference to a Clearing System shall, whenever the context so permits, be deemed to include a reference to any additional or alternative clearing system approved by the Issuer.

Notwithstanding the foregoing, if the Securities are listed on SIX Swiss Exchange AG and the rules of such exchange so require, if the Paying Agent in Switzerland determines in its sole discretion that individually certificated Securities should be necessary or useful, the Issuer shall print individually certificated Securities and deliver them free of charge to or to the order of Securityholders against the cancellation of the rights in respect of the Securities under the relevant Global Security or in the Register.

In such event, the Issuer shall, without the consent of the Securityholders, amend the Conditions in such manner as the Issuer and the Paying Agent in Switzerland shall determine to be necessary in order for payments to continue to be effected and rights exercised in respect of the Securities.

2 Transfers of Registered Securities

(a) Transfer of Registered Securities

To transfer one or more Registered Securities a duly completed form of transfer in the form available from the Registrar or any Transfer Agent must be delivered to the specified office of the

Registrar or any Transfer Agent of together with such other evidence as to the holder's identity and authority as the Registrar or Transfer Agent may reasonably require. All transfers of Registered Securities and entries on the Register will be made subject to the regulations scheduled to the Agency Agreement. The regulations may be changed by the Issuer, with the prior written approval of the Registrar. A copy of the current regulations will be made available by the Registrar to any holder of a Registered Security upon request.

(b) Transfers Free of Charge

The transfer of Securities shall be effected without charge by or on behalf of the Issuer, the Registrar or the Transfer Agents, but upon payment of any tax or other governmental charges that may be imposed in relation to it (or the giving of such indemnity as the Registrar or the relevant Transfer Agent may require).

(c) Closed Periods

No Securityholder may require the transfer of a Registered Security to be registered (i) during the period of 15 days ending on the due date for redemption of, or payment of any Instalment Amount in respect of, that Security, (ii) during the period of 15 days before any date on which Securities may be called for redemption by the Issuer at its option pursuant to General Condition 5(d), (iii) after any such Security has been called for redemption or (iv) during the period of seven days ending on (and including) any Record Date.

3 Status

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* and rateably without any preference among themselves and equally with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

4 Interest and Premium

(a) Interest on Fixed Rate Securities

Each Fixed Rate Security bears interest on its outstanding nominal amount from the Interest Commencement Date either (i) at the rate per annum (expressed as a percentage) equal to the Rate of Interest or (ii) in an Interest Amount, such interest being payable in arrear on each Interest Payment Date. If so specified in the Final Terms, the Rate of Interest or Interest Amount may be different for different Interest Periods.

(b) Premium

If so specified in the Final Terms, the Issuer shall pay a premium in respect of the derivative element of the Securities. Such premium shall be payable in respect of each Security on its outstanding nominal amount from the Premium Commencement Date either (i) at the rate per annum (expressed as a percentage) equal to the Rate of Premium or (ii) in an amount equal to a fixed Premium Amount, such premium being payable in arrear on each Premium Payment Date. If so specified in the Final Terms, the Rate of Premium or Premium Amount may be different for different Premium Periods.

(c) Interest on Floating Rate Securities

(i) Interest Payment Dates

Each Floating Rate Security bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date specified in the Final Terms.

(ii) *Business Day Convention*

If any date that is specified in the Final Terms to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment, (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day, (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) *Rate of Interest for Floating Rate Securities*

The Rate of Interest in respect of Floating Rate Securities for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Terms;
- (y) the Designated Maturity is a period specified in the relevant Terms; and
- (z) the relevant Reset Date is the first day of that Interest Period.

For the purposes of this sub-paragraph (iii), “**Floating Rate**”, “**Calculation Agent**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(d) *Accrual of Interest and Premium*

Interest and Premium shall cease to accrue on each Security on the due date for redemption unless payment is improperly withheld or refused, in which event interest and premium shall continue to accrue (both before and after judgment) in the manner provided in this General Condition 4 to the Relevant Date (as defined in General Condition 7).

(e) *Margin, Maximum/Minimum Rates of Interest, Rate Multipliers and Rounding*

- (i) If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest is specified in the relevant Final Terms, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be

rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest transferable amount of such currency.

(f) Calculations

The amount of interest or premium payable in respect of any Security for any period shall be calculated by multiplying the product of the Rate of Interest or Rate of Premium and the outstanding nominal amount of such Security by the Day Count Fraction, unless an Interest Amount or Premium Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest or premium payable in respect of such Security for such period shall equal such Interest Amount or Premium Amount (or be calculated in accordance with such formula).

(g) Determination and Publication of Rates of Interest/Premium and Interest/Premium Amounts

On such date as the Calculation Agent may be required under this General Condition to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate, calculate such amounts, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amount and/or the Rate of Premium and Premium Amount for each Interest Period and Premium Period and the relevant Interest Payment Date and Premium Payment Date to be notified to the Fiscal Agent, the Issuer (if the Issuer is not the Calculation Agent) each of the Agents, the Securityholders and, if the Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than the fourth Business Day after such determination. Where any Interest Payment Date or Premium Payment Date is subject to adjustment pursuant to General Condition 4(c)(ii), the Interest Amounts and the Interest Payment Date or Premium Amount and Premium Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period or Premium Period. If the Securities become due and payable under General Condition 8, the accrued interest and the Rate of Interest and/or Rate of Premium payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with this General Condition 4 but no publication of the Rate of Interest and/or Rate of Premium or the Interest Amount or Premium Amount so calculated need be made.

(h) Definitions

Unless the context otherwise requires and subject to the Final Terms, the following terms shall have the meanings set out below:

“**Aggregate Nominal Amount**” means the aggregate nominal amount of the Securities set out in the Final Terms.

“**Business Centre**” means each of the places so specified in the Final Terms.

“**Business Day**” means:

- (i) in the case of a currency other than euro, a day (other than a Saturday or Sunday) on which commercial banks and foreign exchange markets settle payments in the principal financial centre for such currency; and/or
- (ii) in the case of euro, a TARGET Business Day; and/or

- (iii) in the case of a currency and/or one or more Business Centres, a day (other than a Saturday or a Sunday) on which commercial banks and foreign exchange markets settle payments in such currency in the Business Centre(s) or, if no currency is indicated, generally in each of the Business Centres.

“**Day Count Fraction**” means, in respect of the calculation of an amount of interest and/or premium on any Security for any period of time (from and including the first day of such period to but excluding the last) (whether or not constituting an Interest Period and/or a Premium Period, the “**Calculation Period**”):

- (i) if “**Actual/Actual**” or “**Actual/Actual – ISDA**” is specified in the relevant Final Terms, the actual number of days in the Calculation Period divided by 365 (or, if any portion of that Calculation Period falls in a leap year, the sum of (A) the actual number of days in that portion of the Calculation Period falling in a leap year divided by 366 and (B) the actual number of days in that portion of the Calculation Period falling in a non-leap year divided by 365);
- (ii) if “**Actual/365 (Fixed)**” is specified in the relevant Final Terms, the actual number of days in the Calculation Period divided by 365;
- (iii) if “**Actual/360**” is specified in the relevant Final Terms, the actual number of days in the Calculation Period divided by 360;
- (iv) if “**30/360**”, “**360/360**” or “**Bond Basis**” is specified in the relevant Final Terms, the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“**Y₁**” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“**Y₂**” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“**M₁**” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“**M₂**” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“**D₁**” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“**D₂**” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31 and D₁ is greater than 29, in which case D₂ will be 30;

- (v) if “**30E/360**” or “**Eurobond Basis**” is specified in the relevant Final Terms, the number of days in the Calculation Period divided by 360 calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“D₁” is the first calendar day, expressed as a number, of the Calculation Period, unless such number would be 31, in which case D₁ will be 30; and

“D₂” is the calendar day, expressed as a number, immediately following the last day included in the Calculation Period, unless such number would be 31, in which case D₂ will be 30;

- (vi) if “**30E/360 (ISDA)**” is specified in the relevant Final Terms, the number of days in the Calculation Period divided by 360, calculated on a formula basis as follows:

$$\text{Day Count Fraction} = \frac{[360 \times (Y_2 - Y_1)] + [30 \times (M_2 - M_1)] + (D_2 - D_1)}{360}$$

where:

“Y₁” is the year, expressed as a number, in which the first day of the Calculation Period falls;

“Y₂” is the year, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

“M₁” is the calendar month, expressed as a number, in which the first day of the Calculation Period falls;

“M₂” is the calendar month, expressed as a number, in which the day immediately following the last day included in the Calculation Period falls;

5 Redemption, Purchase and Options

(a) Redemption by Instalments and Final Redemption

- (i) Unless previously redeemed or purchased and cancelled, each Security that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount specified in the Final Terms. The outstanding nominal amount of each such Security shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Security, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (ii) Unless previously redeemed or purchased and cancelled, each Security shall be redeemed on the Maturity Date specified in the Final Terms at its Redemption Amount (which, unless otherwise provided, shall be its Nominal Amount) or, in the case of a Security falling within paragraph (i) above, its final Instalment Amount.

(b) Early Redemption

The Early Redemption Amount payable in respect of any Security upon redemption of such Security pursuant to General Condition 5(c) or upon it becoming due and payable as provided in General Condition 8, shall be the amount determined by the Issuer that, in the case of redemption pursuant to General Condition 5(c) on a day prior to the due date for redemption selected by the Issuer in its sole and absolute discretion or, in the case of redemption pursuant to General Condition 8, on the due date for redemption of such Security is equal to the fair market value of such Security determined by it.

(c) Redemption for Illegality Reasons

If the Issuer shall have determined in good faith that the performance of any of its obligations under the Securities or that any arrangements made to hedge its obligations under the Securities shall have or will become, in whole or in part, unlawful, illegal, or otherwise contrary to any present or future law, rule, regulation, judgment, order, directive, policy or request of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or any change in the interpretation thereof (an “**Illegality**”), then the Issuer may, if and to the extent permitted by applicable law, either (a) make such adjustment to the Conditions as may be permitted by any applicable Asset Terms or (b) having given not more than 30 nor less than 15 days’ notice to Securityholders in accordance with General Condition 12, redeem the Securities at their Early Redemption Amount. In the case of (b) no payment of the Redemption Amount shall be made after such notice has been given.

(d) Redemption at the Option of the Issuer

If Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than 15 nor more than 30 days’ irrevocable notice to the Securityholders (or such other notice period as may be specified in the Final Terms) redeem, all or, if so provided, some, of the Securities on any Optional Redemption Date specified in the Final Terms at their Optional Redemption Amount specified in the Final Terms. Any such redemption must relate to Securities of a nominal amount at least equal to the minimum nominal amount to be redeemed and no greater than the maximum nominal amount to be redeemed specified in the Final Terms.

All Securities in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this General Condition.

In the case of a partial redemption, the Securities to be redeemed shall be selected in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange, Clearing System and other relevant requirements and holders of Registered Notes shall be notified separately if their Securities have been selected.

(e) Redemption at the Option of Securityholders

If Put Option is specified in the Final Terms, the Issuer shall, at the option of the holder of any such Security, upon the holder of such Security giving not less than 15 nor more than 30 days' notice to the Issuer (or such other notice period as may be specified in the Final Terms) redeem such Security on the Optional Redemption Date(s) specified in the Final Terms at its Optional Redemption Amount specified in the Final Terms. No such option may be exercised if the Issuer has given notice of redemption of the Securities.

In the case of Securities not held in or on behalf of a Clearing System, to exercise such option the holder must deposit a duly completed option exercise notice ("**Exercise Notice**") in the form obtainable from any Paying Agent, the Registrar or any Transfer Agent (as applicable) within the notice period together with (in the case of Bearer Securities) the Global Security with any Paying Agent or (in the case of Registered Securities) with the Registrar or any Transfer Agent at its specified office.

(f) Purchases

The Issuer and any subsidiary or affiliate of the Issuer may at any time purchase Securities (provided that such Securities are purchased with all rights to receive all future payments of interest and Instalment Amounts (if any)) in the open market or otherwise at any price and may hold, resell or cancel them.

(g) Reference to Principal

References to principal shall be deemed to include, wherever the context so admits, any amounts payable under the Securities other than by way of interest.

6 Payments

(a) Bearer Securities

Payments in respect of Bearer Securities shall be made against presentation and annotation or, if no further payment is to be made, surrender of the Global Security at the specified office of any Paying Agent outside the United States by transfer to an account denominated in the Settlement Currency with a bank in the principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET2 System.

(b) Registered Securities

Payments in respect of Registered Securities shall be made to the person shown on the Register at the close of business on the fifteenth day before the due date for payment thereof (the "**Record Date**"). Payments on each Registered Security shall be made in the Settlement Currency by cheque drawn on a bank and mailed to the holder (or to the first-named of joint holders) of such Security at its address appearing in the Register. Upon application by the holder to the specified office of the Registrar or any Transfer Agent before the Record Date, such payment may be made by transfer to an account in the Settlement Currency specified by the payee with a bank in the

principal financial centre for such currency or, in the case of euro, in a city in which banks have access to the TARGET2 System.

(c) Discharge of Obligation

The holder of a Global Security or Global Certificate shall be the only person entitled to receive payments in respect of Securities represented by such Global Security or Global Certificate and the Issuer will be discharged by payment to, or to the order of, the holder of such Global Security or Global Certificate in respect of each amount so paid. Each of the persons shown in the records of the relevant Clearing System as the holder of a particular nominal amount of Securities represented by such Global Security or Global Certificate must look solely to such Clearing System for its share of each payment so made. No person other than the holder of such Global Security or Global Certificate shall have any claim against the Issuer in respect of any payments due on that Global Security or Global Certificate.

(d) Payments Subject to Laws

All payments are subject in all cases to any applicable fiscal and other laws, regulations and directives.

(e) Appointment of Agents

The Agents initially appointed by the Issuer and their respective specified offices are specified in the Final Terms. The Agents act solely as agents of the Issuer and neither the Issuer nor any of the Agents assumes any obligation or relationship of agency or trust of a fiduciary nature for or with any Securityholder. The Issuer may at any time vary or terminate the appointment of any Agent and appoint additional or other Paying Agents or Transfer Agents, provided that the Issuer shall at all times maintain (i) a Fiscal Agent, (ii) a Registrar in relation to Registered Securities, (iii) a Transfer Agent in relation to Registered Securities and (iv) so long as the Securities are listed on any stock exchange and the rules of that stock exchange or the relevant competent authority so require, such Paying Agents or other agents as may be required by the rules of such stock exchange or competent authority.

Notice of any such change or any change of any specified office shall promptly be given to the Securityholders.

(f) Non-Business Days

If any date for payment in respect of any Security is not a business day, the holder shall not be entitled to payment until the next following business day or to any interest or other sum in respect of such postponed payment. In this paragraph, "**business day**" means a day which is a Currency Business Day and, where presentation is required, a Banking Day in the relevant place of presentation.

7 Prescription

Claims against the Issuer for payment in respect of Bearer Securities shall be prescribed and become void unless the Global Security is presented for payment within 10 years (in the case of principal) or five years (in the case of interest) from the appropriate Relevant Date. "**Relevant Date**" means, in respect of any payment, (i) the date on which such payment first becomes due and payable or (ii) if the full amount of moneys payable has not been received by the Fiscal Agent on or prior to such date, the date on which, the full amount of such moneys having been so received, notice to that effect is given to the Securityholders in accordance with General Condition 12.

8 Events of Default

If any one or more of the following events (each, an “**Event of Default**”) has occurred and is continuing:

- (a) the Issuer fails to pay any amount due on the Securities within 30 days after the due date; or
- (b) the Issuer is (or could be deemed by law or court to be) insolvent or bankrupt or unable to pay its debts, stops, suspends or threatens to stop or suspend payment of all or a material part of (or of a particular type of) its debts, initiates or becomes subject to proceedings relating to itself under any applicable bankruptcy, liquidation, insolvency, composition administration or insolvency law proposes or makes a stay of execution, a general assignment or an arrangement or composition with or for the benefit of the relevant creditors in respect of any of such debts or a moratorium is agreed or declared in respect of or affecting all or any part of (or of a particular type of) the debts of the Issuer,

then the holder of any Security may by notice in writing given to the Fiscal Agent at its specified office, declare such Security immediately due and payable, whereupon such Security shall become redeemable at its Early Redemption Amount unless prior to the time when the Fiscal Agent receives such notice all Events of Default have been cured.

9 Meeting of Securityholders and Modifications

(a) **Meetings of Securityholders**

The Agency Agreement contains provisions for convening meetings of Securityholders to consider any matter affecting their interests, including the sanctioning by Extraordinary Resolution of a modification of any of the Conditions. Such a meeting may be convened by Securityholders holding not less than one tenth in nominal amount of the Securities for the time being outstanding. The quorum for any meeting convened to consider an Extraordinary Resolution shall be two or more persons holding or representing a clear majority in nominal amount of the Securities for the time being outstanding, or at any adjourned meeting two or more persons being or representing Securityholders whatever the nominal amount of the Securities held or represented, unless the business of such meeting includes consideration of proposals, *inter alia*, (i) to amend any date for payment on the Securities, (ii) to reduce or cancel the nominal amount of, or any other amount payable or deliverable on redemption of, the Securities, (iii) to reduce the rate or rates of interest in respect of the Securities, (iv) to vary any method of, or basis for, calculating any amount payable on the Securities or deliverable in respect of the Securities, (v) to vary the currency or currencies of payment or denomination of the Securities, (vi) to take any steps that may only be taken following approval by an Extraordinary Resolution to which the special quorum provisions apply or (vii) to modify the provisions concerning the quorum required at any meeting of Securityholders or the majority required to pass the Extraordinary Resolution in which case the necessary quorum shall be two or more persons holding or representing not less than 75 per cent., or at any adjourned meeting not less than 25 per cent., in nominal amount of the Securities for the time being outstanding. Any Extraordinary Resolution duly passed shall be binding on Securityholders (whether or not they were present at the meeting at which such resolution was passed).

(b) **Modification**

The Issuer may modify the Conditions without the consent of any Securityholder for the purposes of (i) curing any ambiguity or correcting or supplementing any provision contained in them in any manner which the Issuer may deem necessary or desirable provided that such modification is not, in the determination of the Issuer, prejudicial to the interests of the Securityholders or (ii) correcting a manifest error. Notice of any such modification will be given to the Securityholders.

10 Substitution of the Issuer

The Issuer, or any previously substituted company, may at any time, without the consent of the Securityholders, substitute for itself as principal obligor under the Securities any company (the “**Substitute**”), being any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells, leases, transfers or conveys all or substantially all its property, subject to:

- (i) where the Substitute is an Affiliate of the Issuer, the Substitute having a long-term unsecured debt rating equal to or higher than that of the Issuer given by Moody’s Investors Service, Inc. (or an equivalent rating from another internationally recognised rating agency) or having the benefit of a guarantee from the Issuer or another Affiliate of the Issuer with such a debt rating;
- (ii) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (iii) the Issuer shall have given at least 30 days’ prior notice of the date of such substitution to the Securityholders in accordance with General Condition 12.

In the event of any substitution of the Issuer, any reference in the Conditions to the Issuer shall thenceforth be construed as a reference to the Substitute.

“**Affiliate**” means any entity controlled, directly or indirectly by the Issuer, any entity that controls, directly or indirectly, the Issuer and any entity under common control with the Issuer.

The Issuer shall also have the right upon notice to Securityholders in accordance with General Condition 12 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

11 Further Issues

The Issuer may from time to time without the consent of the Securityholders create and issue further Securities having the same terms and conditions as the Securities (so that, for the avoidance of doubt, references in the conditions of such Securities to “**Issue Date**” shall be to the first issue date of the Securities) and so that the same shall be consolidated and form a single series with such Securities, and references in these Conditions to “**Securities**” shall be construed accordingly.

12 Notices

Notices to the holders of Securities which are listed on a stock exchange shall be given in such manner as the rules of such exchange or the relevant authority may require (in the case of the Luxembourg Stock Exchange by publication on www.bourse.lu and, in the case of SIX Swiss Exchange AG on the SIX Swiss Exchange AG website www.swx.com). In addition, so long as any Securities are held in or on behalf of a Clearing System, notices to the holders of such Securities may be given by delivery of the relevant notice to that Clearing System for communication by it to entitled accountholders or by delivery of the relevant notice to the holder of the relevant Global Security or Global Certificate. Notices to the holders of Securities may also be given by publication in the newspaper specified in the Final Terms or such other leading newspaper of general circulation as the Issuer may determine. Any such notice shall be deemed to have been given on the weekday following such delivery or, where notices are so published, on the date of such publication or, if published more than once or on different dates, on the date of the first such publication. Notices to the holders of Registered Securities may alternatively be mailed to them at their respective addresses in the Register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing.

Notices to be given by a Securityholder shall (in the case of a Security not held in or on behalf of a Clearing System) be in writing and given by being lodged with an Agent. Where Securities are held in or on behalf of a Clearing System, such notices may be given by the holder of a Security through the relevant Clearing System in such manner as the relevant Clearing System may approve for this purpose together with confirmation from the Clearing System of the Securityholder's holding of Securities.

Where Securities are held in or on behalf of a Clearing System but such Clearing System does not permit notices to be sent through it, such notices may be given by the relevant Securityholder in writing by being lodged with an Agent, subject to the Securityholder providing evidence from the Clearing System satisfactory to the Issuer of the Securityholder's holding of Securities.

13 Calculations and Determinations

Neither the Issuer nor the Calculation Agent shall have any responsibility for good faith errors or omissions in its calculations and determinations, whether caused by negligence or otherwise. The calculations and determinations of the Issuer or Calculation Agent shall be made in accordance with the Conditions having regard in each case to the criteria stipulated therein and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer or Calculation Agent responsible for making the relevant calculation or determination and shall, in the absence of manifest error, be final, conclusive and binding on Securityholders. Neither the Issuer nor the Calculation Agent assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. Nothing in the Conditions shall exclude or restrict any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Services Authority.

14 Third Parties

No person shall have any right to enforce any of the Conditions of the Securities under the Contracts (Rights of Third Parties) Act 1999 except and to the extent (if any) that the Securities expressly provide for such Act to apply to any of their terms.

SUMMARY OF PROVISIONS RELATING TO NOTES WHILE IN GLOBAL FORM

The following provisions apply to Notes while in global form and represented by a global security or global certificate.

1 Relationship of Accountholders with Clearing Systems

Each of the persons shown in the records of a Clearing System as the holder of a Security represented by a Global Security or a Global Certificate must look solely to such Clearing System for its share of each payment made by the Issuer to the bearer of such Global Security or the holder of the Global Certificate, as the case may be, and in relation to all other rights arising under the Global Security or Global Certificate, subject to and in accordance with the respective rules and procedures of such Clearing System.

So long as the Securities are represented by a Global Security or Global Certificate and the relevant Clearing System(s) so permit, the Securities shall be tradable only in principal amounts of at least the Specified Denomination (or if more than one Specified Denomination, the lowest Specified Denomination) provided hereon and integral multiples of the Tradable Amount in excess thereof provided in the relevant Final Terms.

2 Global Certificates

If the Securities are held in a Clearing System and are represented by a Global Certificate, the following will apply in respect of transfers of Securities. These provisions will not prevent the trading of interests in the Securities within a Clearing System (which will be subject to the rules and procedures of the relevant Clearing System), but will limit the circumstances in which the Securities may be withdrawn from the relevant Clearing System.

Transfers of the holding of Securities represented by any Global Certificate pursuant to General Condition 2 may only be made in part:

- (i) if the relevant Clearing System is closed for business for a continuous period of 14 days (other than by reason of holidays, statutory or otherwise) or announces an intention permanently to cease business or does in fact do so; or
- (ii) if principal in respect of any Securities is not paid when due; or
- (iii) with the consent of the Issuer,

provided that, in the case of the first transfer of part of a holding pursuant to 2(i) or 2(ii) above, the person in whose name the Securities are registered has given the Registrar not less than 30 days' notice at its specified office of its intention to effect such transfer.

No such transfer may be made during the period from the date of selection of Securities to be redeemed pursuant to General Condition 5(d) to the date of their redemption.

3 Deed of Covenant

Under the Deed of Covenant the Issuer has covenanted in favour of the Securityholders from time to time that if principal in respect of any Securities is not paid when due, it will make payment of the unpaid amounts in respect of the Securities to the relevant Clearing Systems for crediting to the accounts of the relevant Securityholders in accordance with the rules and procedures of the relevant Clearing System.

GENERAL TERMS AND CONDITIONS OF CERTIFICATES (English Law)

The following is the text of the general terms and conditions that, together with any applicable Asset Terms and subject to the provisions of the relevant Final Terms, shall be applicable to Securities for which the relevant General Terms and Conditions are specified in the Final Terms as being those of “Certificates – English law”. References to Securities are to the Securities of one series, not to all Securities that may be issued under the Programme. Definitions used in these General Terms and Conditions shall not apply in relation to any of the other General Terms and Conditions contained in this Base Prospectus.

In relation to the Securities, the Issuer has executed an agency agreement as amended, restated or supplemented from time to time, the “**Agency Agreement**”), with The Bank of New York Mellon, acting through its London Branch, as issuing agent and principal certificate agent (the “**Principal Certificate Agent**”, which expression shall include, wherever the context so admits, any successor principal certificate agent). The term “**Certificate Agent**” shall include the Principal Certificate Agent and any substitute or additional certificate agents). The Securityholders (as defined in General Condition 1) are deemed to have notice of all the provisions of the Agency Agreement applicable to them. The Issuer has executed a general deed of covenant by deed poll (the “**Deed of Covenant**”) in favour of Securityholders from time to time in respect of Securities issued from time to time under which it has agreed to comply with the terms of all such Securities. Copies of the Agency Agreement (including the form of global certificate referred to below) and the Deed of Covenant are, and, so long as any Security remains outstanding, will be available for inspection during normal business hours at the specified offices of the Certificate Agents. The “Co-Structurer”, if any, shall be the institution specified in the Final Terms.

References to the “**Central Clearing System(s)**” are to Euroclear Bank S.A./N.V. and Clearstream Banking, société anonyme (“**Clearstream, Luxembourg**”) or other Clearing System specified in the Final Terms with or on behalf of which the global certificate (if any) is deposited; references to “**National Clearing System(s)**” are to other Clearing Systems (if any) as may be specified in the relevant Final Terms or notified to Securityholders in accordance with General Condition 8; and references to a “**Clearing System**” shall be to a Central Clearing System or a National Clearing System, as the case may be, and shall include its respective successors and assigns. References to Monte Titoli are to Monte Titoli S.p.A.

The Securities of any series are subject to these General Conditions, as modified and/or supplemented by the relevant Asset Terms and the relevant final terms (the “**Final Terms**”) relating to the relevant Securities (together, the “**Conditions**”). The relevant Securities will (unless otherwise specified) be represented by a global certificate (the “**Global Security**”).

Expressions used herein and not defined shall have the meaning given to them in the relevant Final Terms. In the event of any inconsistency between the General Conditions or the Asset Terms and the Final Terms, the Final Terms will prevail.

Except in relation to General Conditions 12 and 16 references herein to the Issuer shall, if the Final Terms specify that the Issuer is acting through a branch (the “**Branch**”), be to the Issuer acting through such branch.

Where determinations or calculations are required to be made by the Issuer, the Issuer may delegate the performance of such determinations and/or calculations to a Calculation Agent on its behalf. In such event the relevant references to the Issuer shall be construed as references to such Calculation Agent.

(c) Transfer

Transfers of Securities may be effected only in integral multiples of the Transferable Number of Securities, subject to a minimum of any Minimum Trading Lot specified in the Final Terms and (i) in the case of Securities held through Monte Titoli, through the relevant Account Holder, or (ii) in the case of Securities held through another Clearing System, through such Clearing System. Title will pass upon registration of the transfer in the books of (i) in the case of Securities held through Monte Titoli, the relevant Account Holder, or (ii) in the case of Securities held in another Clearing System, such Clearing System.

(d) SIX Swiss Exchange AG

Notwithstanding the foregoing, if the Securities are listed on SIX Swiss Exchange AG and the rules of such exchange so require, or if the Certificate Agent in Switzerland determines in its sole discretion that individually certificated Securities should be necessary or useful, the Issuer shall print individually certificated Securities and deliver them free of charge to or to the order of Securityholders against the cancellation of their rights in respect of the Securities under the relevant Global Security.

In such event, the Issuer shall, without the consent of the Securityholders, amend the Conditions in such manner as the Issuer and the Certificate Agent in Switzerland shall determine to be necessary in order for payments to continue to be effected and rights exercised in respect of the Securities.

2 Status

The Securities are unsubordinated and unsecured obligations of the Issuer and rank *pari passu* and rateably without any preference among themselves and equally with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

3 Redemption and Payment

(a) Redemption Date

Unless previously redeemed or purchased and cancelled, the Issuer will redeem the Securities on the Maturity Date at their Redemption Amount. The Redemption Amount will be calculated as set out in the Final Terms.

(b) Interim payments

In addition, if so specified in the Final Terms, the Issuer will pay or cause to be paid on such dates as may be specified therein such amounts as may be specified or determined in accordance with the provisions of the Final Terms (“**Interim Payments**”).

(c) Redemption at the Option of the Issuer

If Call Option is specified in the relevant Final Terms, the Issuer may, on giving not less than 15 nor more than 30 days’ irrevocable notice to the Securityholders (or such other notice period as may be specified in the Final Terms) redeem in relation to, all or, if so provided, some, of the Securities on any Optional Redemption Date. Any such redemption of Securities shall be at their Optional Redemption Amount. Any such redemption must relate to a number of Securities at least equal to the minimum number to be redeemed and no greater than the maximum number to be redeemed specified in the Final Terms. All Securities in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this General Condition.

(d) Redemption at the Option of Securityholders

If Put Option is specified in the Final Terms, the Issuer shall, at the option of the holder of any such Security, upon the holder of such Security giving not less than 15 nor more than 30 days’ notice to the Issuer (or such other notice period as may be specified in the Final Terms) redeem such Security on the Optional Redemption Date(s) at its Optional Redemption Amount. No such option may be exercised if the Issuer has given notice of redemption of the Securities.

(e) Payments

Payments in respect of Securities will be made to the relevant Central Clearing System(s) for credit to the Securityholders’ accounts. Payment by the Issuer of any amount payable in respect of a Security will be subject in all cases to all applicable fiscal and other laws, regulations and directives and the rules and procedures of the relevant Clearing System(s). Neither the Issuer nor any Certificate Agent shall under any circumstances be liable for any acts or defaults of any Clearing System in the performance of its duties in relation to the Securities.

(f) Non-Currency Business Days

If any date for payment in respect of any Security is not a Currency Business Day, Securityholders shall not be entitled to payment until the next following Currency Business Day or to any interest or other sum in respect of such postponed payment.

4 Illegality

If the Issuer shall have determined in good faith that the performance of any of its obligations under the Securities or that any arrangement made to hedge its obligations under the Securities shall have or will become, in whole or in part, unlawful, illegal or otherwise contrary to any present or future law, rule, regulation, judgment, order, directive, policy or request of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or any change in the interpretation

thereof (an “**Illegality**”), then the Issuer may, if and to the extent permitted by applicable law, either (a) make such adjustment to the conditions as may be permitted by any applicable Asset Terms or (b) having given not more than 30 nor less than 15 days’ notice to Securityholders in accordance with General Condition 8, redeem the Securities at an amount determined by the Issuer as representing their fair market value on such day as the Issuer shall select in its sole and absolute discretion. In the case of (b) no payment of the Redemption Amount shall be made after such notice has been given.

5 Purchases by the Issuer

The Issuer and any subsidiary or affiliate of the Issuer may at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation.

6 Certificate Agents

The Certificate Agents initially appointed by the Issuer and their respective specified offices are specified in the Final Terms. The Certificate Agents act solely as agents of the Issuer and neither the Issuer nor any of the Certificate Agents assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. The Issuer may at any time vary or terminate the appointment of any of the Certificate Agents and appoint additional or other Certificate Agents, provided that (i) so long as any Security is outstanding, there shall be a Principal Certificate Agent and (ii) so long as the Securities are listed on any stock exchange and the rules of that stock exchange or the relevant competent authority so require there shall be a Certificate Agent with a specified office in the city in which such stock exchange is located. Notice of any termination of appointment and of any changes in the specified office of any of the Certificate Agents shall be given to Securityholders in accordance with the Conditions.

7 Further Issues

The Issuer may from time to time without the consent of the Securityholders create and issue further Securities, so as to form a single issue with the Securities.

8 Notices

Notices to the holders of Securities which are listed on a stock exchange shall be given in such manner as the rules of such exchange or the relevant authority may require (in the case of the Luxembourg Stock Exchange by publication on www.bourse.lu and, in the case of SIX Swiss Exchange AG on the SIX Swiss Exchange AG website www.swx.com). In addition, so long as any Securities are held in or on behalf of a Clearing System, notices to the holders of such Securities may be given by delivery of the relevant notice to that Clearing System for communication by it to entitled accountholders or by delivery of the relevant notice to the holder of the relevant Global Security. Notices to the holders of Securities may also be given by publication in the newspaper specified in the Final Terms or such other leading newspaper of general circulation as the Issuer may determine. Any such notice shall be deemed to have been given on the weekday following such delivery or, where notices are so published, on the date of such publication or, if published more than once or on different dates, on the date of the first such publication. Notices to the holders of registered Securities may alternatively be mailed to them at their respective addresses in the relevant register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing.

Notices to be given by a Securityholder shall (in the case of a Security not held in or on behalf of a Clearing System) be in writing and given by being lodged with a Certificate Agent. Where Securities are held in or on behalf of a Clearing System, such notices may be given by the holder of a Security through

the relevant Clearing System in such manner as the relevant Clearing System may approve for this purpose together with confirmation from the Clearing System of the Securityholder's holding of Securities.

Where Securities are held in or on behalf of a Clearing System but such Clearing System does not permit notices to be sent through it, such notices may be given by the relevant Securityholder in writing by being lodged with a Certificate Agent, subject to the Securityholder providing evidence from the Clearing System satisfactory to the Issuer of the Securityholder's holding of Securities.

9 Calculations and Determinations

The Issuer shall have no responsibility for good faith errors or omissions in its calculations and determinations, whether caused by negligence or otherwise. The calculations and determinations of the Issuer shall be made in accordance with the Conditions having regard in each case to the criteria stipulated therein and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer responsible for making the relevant calculation or determination and shall, in the absence of manifest error, be final, conclusive and binding on Securityholders. The Issuer does not assume any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. The Issuer shall have the right to withhold or deduct from any amount payable to the Securityholder, such amount as is necessary (i) for the payment of any such taxes, duties, charges, withholdings or other payments or (ii) for effecting reimbursement to the Issuer for any payment by it of any tax, duty, charge, withholding or other payment referred to in this General Condition.

11 Modification

The Issuer may modify the Conditions without the consent of any Securityholder for the purposes of (i) curing any ambiguity or correcting or supplementing any provision contained in them in any manner which the Issuer may deem necessary or desirable provided that such modification is not, in the determination of the Issuer, prejudicial to the interests of the Securityholders or (ii) correcting a manifest error. Notice of any such modification will be given to the Securityholders.

In such event the relevant references to the Issuer shall be construed as references to such Calculation Agent.

1 Form, Title and Transfer

(a) Form

The Securities shall be represented at all times by the Global Warrant deposited outside the United Kingdom with, or with a common depository for, the Central Clearing System(s). Securities in definitive form shall not be issued.

(b) Title

Each person for the time being appearing in the books of the relevant Clearing System(s) as the holder of a Warrant (other than one Clearing System to the extent that it appears on the books of another Clearing System) or in the case of Securities held through Monte Titoli, each person whose name appears as being entitled to a Warrant in the books of a financial intermediary (an Italian bank, broker or agent authorised to maintain securities accounts on behalf of its clients) (an “**Account Holder**”) who is entitled to such Warrant according to the books of Monte Titoli, shall be treated for all purposes by the Issuer, the Warrant Agents and the relevant Clearing System(s) as the holder thereof, notwithstanding any notice to the contrary (each such person being referred to herein as a “**Securityholder**”).

(c) Transfer

Transfers of Securities may be effected only in integral multiples of the Transferable Number of Securities, subject to a minimum of any Minimum Trading Lot specified in the Final Terms and (i) in the case of Securities held through Monte Titoli, through the relevant Account Holder, or (ii) in the case of Securities held through another Clearing System, through such Clearing System. Title will pass upon registration of the transfer in the books of (i) in the case of Securities held through Monte Titoli, the relevant Account Holder, or (ii) in the case of Securities held in another Clearing System, such Clearing System.

(d) SIX Swiss Exchange AG

Notwithstanding the foregoing, if the Securities are listed on SIX Swiss Exchange AG and the rules of such exchange so require, or if the Warrant Agent in Switzerland determines in its sole discretion that definitive Securities should be necessary or useful, the Issuer shall print definitive Securities and deliver them free of charge to or to the order of Securityholders against the cancellation of the rights in respect of the Securities under the relevant Global Warrant.

In such event, the Issuer shall, without the consent of the Securityholders, amend the Conditions in such manner as the Issuer and the Warrant Agent in Switzerland shall determine to be necessary in order for payments to continue to be effected and rights exercised in respect of the Securities.

2 Status

The Securities are unsubordinated and unsecured obligations of the Issuer and will rank *pari passu* and ratably without any preference among themselves and equally with all other unsubordinated and unsecured obligations of the Issuer from time to time outstanding.

3 Exercise Rights

(a) Exercise of Securities

(i) Automatic Exercise

Each Warrant shall (unless, if American Style applies, previously exercised) be deemed to have been automatically exercised on the Expiration Date (subject to prior termination or

cancellation of the Securities in accordance with General Conditions 6 and 7 or in the Final Terms).

(ii) **American Style**

The following applies only to Securities specified to be American Style:

Each Warrant is exercisable (subject to General Conditions 3(a)(i) and 4), free of charge on any Exercise Business Day during the period from, but excluding, the Issue Date to, and including, the Exercise Business Day before the Expiration Date or, in the case of Warrants where the Central Clearing System is SIS SegalIntersettle AG, to and including the Expiration Date (the “**Exercise Period**”) subject to prior termination or cancellation of the Securities as provided in General Conditions 6 and 7 or in the Final Terms.

The Securities may be exercised only in the Minimum Exercise Number and an Exercise Notice (as defined in General Condition 4(a)) that purports to exercise Securities in a number smaller than the Minimum Exercise Number shall be void.

If a Maximum Exercise Number is specified in the relevant Final Terms then if, other than in the case of the Expiration Date, the Issuer determines that the Valuation Date (or if more than one, the initial Valuation Date) of more than the Maximum Exercise Number of Securities would, except as a consequence of this provision otherwise fall on the same date, the Issuer may deem the Valuation Date (or if more than one, the initial Valuation Date) for the Maximum Exercise Number of such Securities to be the originally applicable Valuation Date for such Securities, and the relevant Valuation Date for the remainder of such Securities to be (subject to the relevant Asset Terms) postponed to the next day which is a Banking Day in the city of the Principal Warrant Agent and, if different, London following such Valuation Date. The order of receipt by the Principal Warrant Agent of the notifications to it under General Condition 4(c) shall govern the priority of Securities for selection by the Issuer for such postponement.

(b) Entitlement on exercise of Securities

Securities which have been duly exercised or deemed exercised entitle the relevant Securityholder to require the Issuer to pay, subject to the Conditions of the Securities, the Settlement Amount in respect of such Securities in the Settlement Currency on the Settlement Date in accordance with the Conditions.

(c) Settlement Amount

The Settlement Amount will be calculated as set out in the Final Terms.

4 Exercise Procedure

This General Condition 4 only applies to Securities to which American Style is specified to apply in the Final Terms.

(a) Exercise Notice

To exercise Securities, instructions in the form and with the content prescribed by the relevant Clearing System through which the relevant Securityholder exercises its Securities (an “**Exercise Notice**”) must be given to that Clearing System on any day during the Exercise Period.

Each Exercise Notice shall be deemed to constitute an irrevocable election by the holder of the number of Securities specified in it to exercise such Securities. Thereafter such Securities may not be transferred.

(b) Verification

In accordance with its normal operating procedures, the relevant Clearing System will verify that, according to its records, each person exercising Securities has Securities in the amount being exercised in its securities account with the relevant Clearing System. If the relevant Clearing System determines that an Exercise Notice is improperly completed or that the relevant Securityholder has insufficient Securities in its Clearing System account, the Exercise Notice will be treated as void and a new duly completed Exercise Notice must be submitted if exercise of the holder's Securities is still desired and possible. Such a determination shall be conclusive and binding on the issuer, the Warrant Agents and the relevant Securityholder.

(c) Notification of Principal Warrant Agent and Debit of Securityholder's Account

The relevant Clearing System will, in accordance with its normal operating procedures, notify the Principal Warrant Agent of the exercise of the relevant Securities and debit the Securities being exercised from the relevant account of the Securityholder.

5 Payments

(a) Payments

Payments in respect of Securities will be made to the relevant Central Clearing System(s) for credit to the Securityholders' accounts. Payment by the Issuer of any amount payable in respect of a Security will be subject in all cases to all applicable fiscal and other laws, regulations and directives and the rules and procedures of the relevant Clearing System(s). Neither the Issuer nor any Certificate Agent shall under any circumstances be liable for any acts or defaults of any Clearing System in the performance of its duties in relation to the Securities.

(b) Non-Currency Business Days

If any date for payment in respect of any Security is not a Currency Business Day, Securityholders shall not be entitled to payment until the next following Currency Business Day or to any interest or other sum in respect of such postponed payment.

6 Illegality

If the Issuer shall have determined in good faith that the performance of any of its obligations under the Securities or that any arrangement made to hedge its obligations under the Securities shall have or will become, in whole or in part, unlawful, illegal or otherwise contrary to any present or future law, rule, regulation, judgment, order, directive, policy or request of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or any change in the interpretation thereof (an "**Illegality**"), then the issuer may, if and to the extent permitted by applicable law, either (a) make such adjustment to the Conditions as may be permitted by any applicable Asset Terms or (b) cancel the Securities and, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with General Condition 10, redeem the Securities at an amount determined by the Issuer as representing their fair market value on such day as the Issuer shall select in its sole and absolute discretion. In the case of (b) no Security may be exercised once cancelled.

7 Purchases by the Issuer

The Issuer and any subsidiary or affiliate of the Issuer may at any time purchase Securities at any price in the open market or by tender or private treaty. Any Securities so purchased may be held or resold or surrendered for cancellation.

8 Warrant Agents

The Warrant Agents initially appointed by the Issuer and their respective specified offices are specified in the Final Terms. The Warrant Agents act solely as agents of the Issuer and neither the Issuer nor any of the Warrant Agents assumes any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. The Issuer may at any time vary or terminate the appointment of any of the Warrant Agents and appoint additional or other Warrant Agents, provided that (i) so long as any Security is outstanding, there shall be a Principal Warrant Agent and (ii) so long as the Securities are listed on any stock exchange and the rules of that stock exchange or the relevant competent authority so require there shall be a Warrant Agent with a specified office in the city in which such stock exchange is located. Notice of any termination of appointment and of any changes in the specified office of any of the Warrant Agents shall be given to Securityholders in accordance with the Conditions.

9 Further Issues

The Issuer may from time to time without the consent of the Securityholders create and issue further securities, so as to form a single issue with the Securities.

10 Notices

Notices to the holders of Securities which are listed on a stock exchange shall be given in such manner as the rules of such exchange or the relevant authority may require (in the case of the Luxembourg Stock Exchange by publication on www.bourse.lu and, in the case of SIX Swiss Exchange AG on the SIX Swiss Exchange AG website www.swx.com). In addition, so long as any Securities are held in or on behalf of a Clearing System, notices to the holders of such Securities may be given by delivery of the relevant notice to that Clearing System for communication by it to entitled accountholders or by delivery of the relevant notice to the holder of the relevant Global Warrant. Notices to the holders of Securities may also be given by publication in the newspaper specified in the Final Terms or such other leading newspaper of general circulation as the Issuer may determine. Any such notice shall be deemed to have been given on the weekday following such delivery or, where notices are so published, on the date of such publication or, if published more than once or on different dates, on the date of the first such publication. Notices to the holders of registered Securities may alternatively be mailed to them at their respective addresses in the relevant register and deemed to have been given on the fourth weekday (being a day other than a Saturday or a Sunday) after the date of mailing.

Notices to be given by a Securityholder shall (in the case of a Security not held in or on behalf of a Clearing System) be in writing and given by being lodged with a Warrant Agent. Where Securities are held in or on behalf of a Clearing System, such notices may be given by the holder of a Security through the relevant Clearing System in such manner as the relevant Clearing System may approve for this purpose together with confirmation from the Clearing System of the Securityholder's holding of Securities.

Where Securities are held in or on behalf of a Clearing System but such Clearing System does not permit notices to be sent through it, such notices may be given by the relevant Securityholder in writing by being lodged with a Warrant Agent, subject to the Securityholder providing evidence from the Clearing System satisfactory to the Issuer of the Securityholder's holding of Securities.

11 Calculations and Determinations

The Issuer shall have no responsibility for good faith errors or omissions in its calculations and determinations, whether caused by negligence or otherwise. The calculations and determinations of the Issuer shall be made in accordance with the Conditions having regard in each case to the criteria stipulated therein and (where relevant) on the basis of information provided to or obtained by employees or officers of the Issuer responsible for making the relevant calculation or determination and shall, in the

absence of manifest error, be final, conclusive and binding on Securityholders. The Issuer does not assume any obligation or relationship of agency or trust or of a fiduciary nature for or with any Securityholder. Nothing in the Conditions shall exclude any duty or liability arising under the regulatory framework applicable to any person authorised by the Financial Services Authority.

12 Taxation

The Issuer is not liable for or otherwise obliged to pay, and the relevant Securityholder shall pay, any tax, duty, charges, withholding or other payment which may arise as a result of, or in connection with, the ownership, transfer, exercise or enforcement of any Security, including, without limitation, the payment of any Settlement Amount. The Issuer shall have the right to withhold or deduct from any amount payable to the Securityholder such amount as is necessary (i) for the payment of any such taxes, duties, charges, withholdings or other payments or (ii) for effecting reimbursement to the Issuer for any payment by it of any tax, duty, charge, withholding or other payment referred to in this General Condition.

13 Modification

The Issuer may modify the Conditions without the consent of any Securityholder for the purposes of (i) curing any ambiguity or correcting or supplementing any provision contained in them in any manner which the Issuer may deem necessary or desirable provided that such modification is not, in the determination of the Issuer, prejudicial to the interests of the Securityholders or (ii) correcting a manifest error. Notice of any such modification will be given to the Securityholders.

14 Substitution of the Issuer

The Issuer, or any previously substituted company, may at any time, without the consent of the Securityholders, substitute for itself as principal obligor under the Securities any company (the “**Substitute**”), being any Affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells, leases, transfers or conveys all or substantially all its property, subject to:

- (i) where the Substitute is an Affiliate of the Issuer, the Substitute having a long-term unsecured debt rating equal to or higher than that of the Issuer given by Moody’s Investors Service, Inc. (or an equivalent rating from another internationally recognised rating agency) or having the benefit of a guarantee from the Issuer or another Affiliate of the Issuer with such a debt rating;
- (ii) all actions, conditions and things required to be taken, fulfilled and done (including the obtaining of any necessary consents) to ensure that the Securities represent legal, valid and binding obligations of the Substitute having been taken, fulfilled and done and being in full force and effect;
- (iii) the Issuer shall have given at least 30 days’ prior notice of the date of such substitution to the Securityholders in accordance with General Condition 10.

In the event of any substitution of the Issuer, any reference in the Conditions to the Issuer shall thenceforth be construed as a reference to the Substitute.

“**Affiliate**” means any entity controlled, directly or indirectly by the Issuer, any entity that controls, directly or indirectly, the Issuer and any entity under common control with the Issuer.

The Issuer shall also have the right upon notice to Securityholders in accordance with General Condition 10 to change the office through which it is acting for the purpose of the Securities, the date of such change to be specified in such notice provided that no change can take place prior to the giving of such notice.

Each Floating Rate Security bears interest on its outstanding nominal amount from the Interest Commencement Date at the rate per annum (expressed as a percentage) equal to the Rate of Interest, such interest being payable in arrear on each Interest Payment Date specified in the Final Terms.

(ii) Business Day Convention

If any date that is specified in the Final Terms to be subject to adjustment in accordance with a Business Day Convention would otherwise fall on a day that is not a Business Day, then, if the Business Day Convention specified is (A) the Floating Rate Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event (x) such date shall be brought forward to the immediately preceding Business Day and (y) each subsequent such date shall be the last Business Day of the month in which such date would have fallen had it not been subject to adjustment; (B) the Following Business Day Convention, such date shall be postponed to the next day that is a Business Day; (C) the Modified Following Business Day Convention, such date shall be postponed to the next day that is a Business Day unless it would thereby fall into the next calendar month, in which event such date shall be brought forward to the immediately preceding Business Day; or (D) the Preceding Business Day Convention, such date shall be brought forward to the immediately preceding Business Day.

(iii) Rate of Interest for Floating Rate Securities

The Rate of Interest in respect of Floating Rate Securities for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated in the Final Terms) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Terms;
- (y) the Designated Maturity is a period specified in the relevant Terms; and
- (z) the relevant Reset Date is the first day of that Interest Period.

For the purposes of this sub-paragraph (iii), “**Floating Rate**”, “**Calculation Agent**” and “**Swap Transaction**” have the meanings given to those terms in the ISDA Definitions.

(d) Accrual of Interest and Premium

Interest and premium shall cease to accrue on each Security on the due date for redemption unless payment is improperly withheld or refused, in which event interest and premium shall continue to accrue (both before and after judgment) in the manner provided in this IS2 to the date of actual payment.

(e) Margin, Maximum/Minimum Rates of Interest, Rate Multipliers and Rounding

- (i) If any Margin or Rate Multiplier is specified in the relevant Final Terms (either (x) generally, or (y) in relation to one or more Interest Periods), an adjustment shall be made to all Rates of Interest, in the case of (x), or the Rates of Interest for the specified Interest Periods, in the case of (y), calculated in accordance with (c) above by adding (if a positive number) or subtracting the absolute value (if a negative number) of such Margin or multiplying by such Rate Multiplier, subject always to the next paragraph.
- (ii) If any Maximum or Minimum Rate of Interest is specified in the relevant Final Terms, then any Rate of Interest shall be subject to such maximum or minimum, as the case may be.
- (iii) For the purposes of any calculations (unless otherwise specified), (x) all percentages resulting from such calculations shall be rounded, if necessary, to the nearest one hundred-thousandth of a percentage point (with halves being rounded up), (y) all figures shall be rounded to seven significant figures (with halves being rounded up) and (z) all currency amounts that fall due and payable shall be rounded to the nearest unit of such currency (with halves being rounded up), save in the case of yen, which shall be rounded down to the nearest yen. For these purposes “unit” means the lowest transferable amount of such currency.

(f) Calculations

The amount of interest and premium payable in respect of any Security for any period shall be calculated by multiplying the product of the Rate of Interest or Rate of Premium and the outstanding nominal amount of such Security by the Day Count Fraction, unless an Interest Amount or Premium Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest or premium payable in respect of such Security for such period shall equal such Interest Amount or Premium Amount (or be calculated in accordance with such formula).

(g) Determination and Publication of Rates of Interest/Premium and Interest/Premium Amounts

On such date as the Calculation Agent may be required under this General Condition to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate, calculate such amounts, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amount and/or the Rate of Premium and Premium Amount for each Interest Period and Premium Period and the relevant Interest Payment Date and Premium Payment Date to be notified to the Fiscal Agent, the Issuer (if the Issuer is not the Calculation Agent) each of the Agents, the Securityholders and, if the Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than the fourth Business Day after such determination. Where any Interest Payment Date or Premium Payment Date is subject to adjustment pursuant to I§2(b)(ii), the Interest Amounts and the Interest Payment Date or Premium Amount and Premium Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period or Premium Period. If the Securities become due and payable under I§2, the accrued interest and premium and the Rate of Interest and/or Rate of Premium payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with this I§2 but no publication of the Rate of Interest and/or Rate of Premium or the Interest Amount or Premium Amount so calculated need be made.

(iii) Rate of Interest for Floating Rate Securities

The Rate of Interest in respect of Floating Rate Securities for each Interest Period shall be determined by the Calculation Agent as a rate equal to the relevant ISDA Rate plus or minus (as indicated hereon) the Margin (if any). For the purposes of this sub-paragraph (A), “**ISDA Rate**” for an Interest Period means a rate equal to the Floating Rate that would be determined by the Calculation Agent under a Swap Transaction under the terms of an agreement incorporating the ISDA Definitions and under which:

- (x) the Floating Rate Option is as specified in the relevant Terms;

For these purposes “**unit**” means the lowest transferable amount of such currency.

(f) Calculations

The amount of interest or premium payable in respect of any Security for any period shall be calculated by multiplying the product of the Rate of Interest or Rate of Premium and the outstanding nominal amount of such Security by the Day Count Fraction, unless an Interest Amount or Premium Amount (or a formula for its calculation) is specified in respect of such period, in which case the amount of interest or premium payable in respect of such Security for such period shall equal such Interest Amount or Premium Amount (or be calculated in accordance with such formula).

(g) Determination and Publication of Rates of Interest/Premium and Interest/Premium Amounts

On such date as the Calculation Agent may be required under this General Condition to calculate any rate or amount, obtain any quotation or make any determination or calculation, it shall determine such rate, calculate such amounts, obtain such quotation or make such determination or calculation, as the case may be, and cause the Rate of Interest and the Interest Amount and/or the Rate of Premium and Premium Amount for each Interest Period and Premium Period and the relevant Interest Payment Date and Premium Payment Date to be notified to the Paying Agent, the Issuer (if the Issuer is not the Calculation Agent), each of the Agents, the Securityholders and, if the Securities are listed on a stock exchange and the rules of such exchange or other relevant authority so require, such exchange or other relevant authority as soon as possible after their determination but in no event later than the fourth Business Day after such determination. Where any Interest Payment Date or Premium Payment Date is subject to adjustment pursuant to General Condition 4(c)(ii), the Interest Amounts and the Interest Payment Date or Premium Amount and Premium Payment Date so published may subsequently be amended (or appropriate alternative arrangements made by way of adjustment) without notice in the event of an extension or shortening of the Interest Period or Premium Period. If the Securities become due and under General Condition 8, the accrued interest and premium and the Rate of Interest and/or Rate of Premium payable in respect of the Securities shall nevertheless continue to be calculated as previously in accordance with this General Condition 4 but no publication of the Rate of Interest and/or Rate of Premium or the Interest Amount or Premium Amount so calculated need be made.

(a) Redemption by Instalments and Final Redemption

- (i) Unless previously redeemed or purchased and cancelled, each Security that provides for Instalment Dates and Instalment Amounts shall be partially redeemed on each Instalment Date at the related Instalment Amount each as specified in the Final Terms. The outstanding nominal amount of each such Security shall be reduced by the Instalment Amount (or, if such Instalment Amount is calculated by reference to a proportion of the nominal amount of such Security, such proportion) for all purposes with effect from the related Instalment Date, unless payment of the Instalment Amount is improperly withheld or refused, in which case, such amount shall remain outstanding until the Relevant Date relating to such Instalment Amount.
- (ii) Unless previously redeemed or purchased and cancelled, each Security shall be redeemed on the Maturity Date specified in the Final Terms at its Redemption Amount (which, unless otherwise provided in the Final Terms, shall be its nominal amount) or, in the case of a Security falling within paragraph (i) above, its final Instalment Amount.

If the Issuer shall have determined in good faith that the performance of any of its obligations under the Securities or that any arrangements made to hedge its obligations under the Securities shall have or will become, in whole or in part, unlawful, illegal, or otherwise contrary to any present or future law, rule, regulation, judgment, order, directive, policy or request of any governmental, administrative, legislative or judicial authority or power (but, if not having the force of law, only if compliance with it is in accordance with the general practice of persons to whom it is intended to apply), or any change in the interpretation thereof (an “**Illegality**”), then the Issuer may, if and to the extent permitted by applicable law, either (a) make such adjustment to the Conditions as may be permitted by any applicable Asset Terms or (b) having given not more than 30 nor less than 15 days’ notice to Securityholders in accordance with General Condition 11 (which notice shall be irrevocable), redeem all, but not some only, of the Securities at their Early Redemption Amount. In the case of (b) no payment of the Redemption Amount shall be made after such notice has been given.

Any such redemption must relate to Securities of a nominal amount at least equal to the minimum nominal amount to be redeemed and no greater than the maximum nominal amount to be redeemed specified in the Final Terms.

All Securities in respect of which any such notice is given shall be redeemed on the date specified in such notice in accordance with this General Condition.

In the case of a partial redemption, the Securities to be redeemed shall be selected in such place and in such manner as may be fair and reasonable in the circumstances, taking account of prevailing market practices, subject to compliance with any applicable laws and stock exchange, Clearing System and other relevant requirements, and the notice to Securityholders shall, unless all the Securities are held in or on behalf of a Clearing System, also contain the certificate numbers of the relevant Bearer Securities.

No such option may be exercised if the Issuer has given notice of redemption of the Securities.

In addition, if there is an Index Disruption Event or an Additional Disruption Event, the Issuer may (i) make its own determination of the relevant FX Index level or (ii) make such adjustment to (a) the calculation of the relevant FX Index level (b) any amount payable under the Securities (which may include the substitution of the FX Index specified in the Final Terms with a different index or indices irrespective of whether such index or indices are then currently used for the purposes of the calculation of amounts payable under the Securities) or (c) the timing or nature of any payment under the Securities as it may, in its discretion, determine to be appropriate. If it determines that it is unable to make such an adjustment, having given no more than 30 nor less than 15 days’ notice to Securityholders in accordance with the General Conditions, redeem the Securities at an amount determined by the Issuer as

representing their fair market value on such day as the Issuer shall select in its sole and absolute discretion. The Issuer may also make such adjustments if it would be entitled to redeem or cancel the Securities under the General Conditions for reasons of Illegality.

Determinations by the Issuer shall be made in good faith and in a commercially reasonable manner having regard to market practices. Such determinations shall, in the absence of manifest error, be conclusive and binding on Securityholders.

If the Final Terms specify in relation to an FX Index that Jurisdictional Event shall apply and, in the determination of the Issuer, a Jurisdictional Event occurs, the Issuer may make such downward adjustment to any amount otherwise payable under the Securities as it shall determine in its absolute discretion to take account of the effect of such Jurisdictional Event on any Hedging Arrangements and any difference between the Hedge Proceeds and the amount which, but for these provisions would otherwise be the amount so payable. The Issuer will use commercially reasonable endeavours to preserve the value of the Hedge Proceeds, but it shall not be obliged to take any measures which it determines, in its sole discretion, to be commercially impracticable.

4 Responsibility

None of the Issuer or the Agents shall have any responsibility in respect of any error or omission or subsequent corrections made in the calculation or announcement of an FX Index, whether caused by negligence or otherwise.

If the period for which the Inflation Index level was reported is a period other than a month, the Reference Month is the period for which the Inflation Index level was reported.

"Sponsor" means, in relation to an Inflation Index, the entity as determined by the Issuer that (a) is responsible for setting and reviewing the rules and procedures and the methods of calculation and adjustments, if any, related to such Inflation Index, and (b) announces (directly or through an agent) the level of such Inflation Index on a regular basis during each Reference Month failing whom such person acceptable to the Issuer who calculates and announces the Inflation Index or any agent or person acting on behalf of such person.

2 Modification or Discontinuation of the Inflation Index

- (a) If the level of the Inflation Index for a Reference Month is not published by the day that is five Business Days prior to a Determination Date, the Issuer will determine the level of the Inflation Index in its sole and absolute discretion by reference to the most recent value of the Inflation Index published in respect of a month prior to the relevant Inflation Fixing Month adjusted in accordance with standard market methodologies, as determined by the Issuer. For the avoidance of doubt, if the level of the Inflation Index is published after the day that is five Business Days prior to a Determination Date such level will not be used in any calculations and the provisions of this paragraph will apply.
- (b) If the level of the Inflation Index has not been published for two consecutive months or the Inflation Index is discontinued or materially altered in the opinion of the Issuer, the Issuer will use the index identified and used by the relevant authority responsible for monitoring the average change in the relevant prices (such relevant authority to be determined by the Issuer) (and if there is more than one such index, one of such indices as determined by the Issuer) or, if this is not feasible, by reference to an alternative index deemed appropriate by the Issuer. If the Issuer determines, in its absolute discretion, that no alternative index is appropriate, having given not more than 30 nor less than 15 days' notice to Securityholders in accordance with the General Conditions, the Issuer may redeem the Securities at an amount determined by the Issuer as representing their fair market value on such day as the Issuer shall select in its sole and absolute discretion. The Issuer may also make such adjustments if it would be entitled to redeem or cancel the Securities under the General Conditions for reasons of Illegality.

Determinations by the Issuer pursuant to this Asset Term shall be made in good faith and in a commercially reasonable manner having regard to market practices. Such determinations shall, in the absence of manifest error, be conclusive and binding on Securityholders.

- (c) If the Inflation Index is no longer calculated or published by the Sponsor, but is, in the determination of the Issuer, published by a successor entity using an identical calculation formula, the Issuer will determine the relevant amount under the Securities by reference to the index as so published.
- (d) If, at any time, the Inflation Index is rebased, the Issuer, acting in its sole and absolute discretion, will make any necessary adjustments to ensure that the economic equivalent of the Securities is preserved.
- (e) If the Sponsor corrects the level of the Inflation Index within 30 days of publication to remedy a manifest error in its original publication the Issuer may, in its absolute discretion, take such action as it deems necessary to give effect to such correction.
- (f) Any material modification or discontinuation made to the Inflation Index in accordance with this Asset Term 2 shall be notified by or on behalf of the Issuer to any stock exchange on which the Securities are admitted to trading following such modification or discontinuation.

Before making an investment decision in relation to such financial products one should refer to the prospectus or other disclosure document relating to such financial products.

CSi (including its officers, employees and delegates) shall not be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with anything done, determined, interpreted, amended or selected (or omitted to be done, determined or selected) by it in connection with the Index and the Index Rules. Without prejudice to the generality of the foregoing, CSi shall not be liable for any loss suffered by any party as a result of any determination, calculation, interpretation, amendment or selection it makes (or fails to make) in relation to the construction or the valuation of the Index and the application of the Index Rules and, once made, CSi shall not be under any obligation to revise any determination, calculation, amendment, interpretation or selection made by it for any reason.

The performance of the Index will depend, inter alia, on the performance of interest rates, volatilities and the Model and CSi, therefore, makes no guarantee or representation of any kind in relation to the performance of the Index, the level of which may go down as well as up. Past performance of the Index is no guarantee of future performance.

CSi does not purport to be a source of information on market risks with respect to interest rates and volatilities.

CSi is under no obligation to monitor whether or not an index disruption event (as defined in the Index Rules) has occurred and shall not be liable for any losses resulting from (i) any determination that an index disruption event has occurred or has not occurred in relation, (ii) the timing relating to the determination that an index disruption event has occurred or (iii) any actions taken or not taken by CSi as a result of such determination that an index disruption event has occurred.

Unless otherwise specified, CSi shall make all calculations, determinations, amendments, interpretations and selections in respect of the Index. CSi (including its officers, employees and delegates) shall have no responsibility for good faith errors or omissions in its calculations, determinations, amendments, interpretations and selections as provided in the Index Rules. The calculations, determinations, amendments, interpretations and selections of CSi shall be made by it in accordance with the Index Rules, acting in its sole, absolute and unfettered discretion, but in good faith (having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of CSi responsible for making the relevant calculations, determinations, amendments, interpretations and selections). For the avoidance of doubt, any calculations or determinations made by CSi under the Index Rules on an estimated basis shall not be revised following the making of such calculation or determination.

CSi as Index Sponsor may transfer or delegate to another entity, at its discretion, the authority associated with the role of Index Sponsor or Index Calculation Agent under the Index Rules.

CSi retains the final discretion as to the manner in which the Index is calculated and constructed. Furthermore, CSi is the final authority on the Index and the interpretation and application of the Index Rules.

CSi may supplement, amend (in whole or in part), revise or withdraw the Index Rules at any time. Such a supplement, amendment, revision or withdrawal may lead to a change in the way the Index is calculated or constructed and may affect the Index in other ways. Without prejudice to the generality of the foregoing, CSi may determine that a change to the Index Rules is required or desirable to address an error, ambiguity or omission. Such changes, for example, may include changes to eligibility requirements or construction and weighting. The Index Rules may change without prior notice.

CSi may apply the Index Rules in such manner as it, in its discretion considers reasonable and in doing so may rely upon other sources of market information as it, in its discretion, considers reasonable.

CSi does not warrant or guarantee the accuracy or timeliness of calculations of Index values and does not warrant or guarantee the availability of an Index value on any particular date or at any particular time.

The Index Rules shall be governed by and construed in accordance with English law.

CREDIT SUISSE AGRICULTURE INDEX

The Credit Suisse Agriculture Index is described in the “Rules for the Credit Suisse Agriculture Index” as amended from time to time (the “**Index Rules**”). The index is calculated and maintained by Standard & Poor’s (the “**Index Calculation Agent**”) based on a methodology developed by Credit Suisse Securities (Europe) Limited (the “**Index Creator**”). The Index Rules are available on the Standard & Poor’s website, www.customindices.standardandpoors.com (provided that such website does not form part of this index description). This summary description is qualified in all respects by and is subject to the Index Rules (provided that the Index Rules do not form part of this Base Prospectus or the Terms and Conditions of the Securities).

HOLT, a service of Credit Suisse, maintains a database that currently contains a global universe of approximately 18,000 stocks. HOLT has also developed a scoring model to determine whether a particular stock is undervalued, has good stock market momentum and displays strong corporate performance.

The universe of eligible companies for the index comprises the 80 stocks (stocks issued by companies in the agriculture sector pursuant to the GICS and SIC classifications) in the HOLT database with the highest liquidity of those agriculture companies which are listed on a regulated stock exchange. The constituents of the index are the 40 stocks in the universe of eligible companies that are most attractive according to the HOLT scoring model.

For further details with respect to HOLT and information as to the historic and current performance and volatility of the index, please refer to www.credit-suisse.com/holtmethodology (provided that such website does not form part of this index description).

The index is calculated in both synthetic price-return and total-return forms, in US Dollars, Euros, Swiss Francs and Japanese Yen.

The rules for construction, calculation and re-balancing of the index are set out in the Index Rules.

CREDIT SUISSE COMMODITY BENCHMARK (CSCB) INDICES

The Credit Suisse Commodity Benchmark (CSCB) Indices are listed in the table below (each an “**Index**” and together the “**Indices**”). Each Index is part of the Credit Suisse Commodity Framework (the “**Framework**”) and is documented by two separate master terms, the generic “Core Index Methodology” and the “Index Parameters” specific to each Index, which together constitute the Index Operating Manual for each Index, as amended from time to time (the “**Index Rules**”). The Framework is designed to handle a generalised commodity forward curve instrument of an entire liquid commodity forward curve for each of the included commodities. Each Index is calculated and maintained by Credit Suisse International (the “**Index Calculation Agent**” or “**Index Sponsor**”) based on a methodology developed by the Index Sponsor. The relevant Index Rules are available on Credit Suisse’s website, www.credit-suisse.com/indices (provided that such website does not form part of this index description). This summary description is qualified in all respects by and is subject to the relevant Index Rules (provided that the relevant Index Rules do not form part of this Base Prospectus or the Terms and Conditions of the Securities).

Each Index is a long-only Index, building on a long established index that utilise both world production and global exchange market liquidity as means of determining the relative importance of the components within the overall curve Index.

The family of Indices consists of an overall curve Index and Indices for each of the curve segments as well as the sector Indices and component Indices for each of the curve segments.

Curve segments are predefined such that:

- :- the “PROMPT” represents the 1st, 2nd and 3rd nearby futures contract;
- :- the “4x6F” segment represents the 4th, 5th, and 6th nearby futures contract;
- :- the “7x12F” segment represents the 7th, to the 12th nearby futures contract;
- :- the “13x24F” segment represents the 13th to the 24th nearby futures contract; and
- :- the “25x36F” segment represents the 25th to the 36th nearby futures contract.

Each Index is calculated in total return form and excess return form.

For further details with respect to the Indices and information as to the historic and current performance and volatility of the Indices, please refer to www.credit-suisse.com/indices (provided that such website does not form part of this index description).

The rules for construction, calculation and re-balancing of each Index are set out in the relevant Index Rules.

Disclaimer

This disclaimer extends to Credit Suisse International (“CSi”), its affiliates or its designate in any of its capacities as Index Sponsor, Index Calculation Agent and its constitution of the Index advisory committee and Framework steering committee and any reference to CSi shall also mean a reference to its affiliates or designates in any such capacity. References to “this document” refers to the relevant section of the Index Rules.

CSi is authorised and regulated in the United Kingdom by the Financial Services Authority (“FSA”). Notwithstanding that CSi is so regulated the rules of the FSA are not incorporated into this document.

The Index Sponsor and the Index Calculation Agent are the same entity and the members of the Framework steering committee, and Index advisory committee may be employed by Credit Suisse and CSi or its affiliates may be the issuer of securities linked to the Index. CSi and its affiliates may, therefore, in each of its capacities face a conflict in its obligations in carrying out such role with investors in the securities and may resolve such conflict in its own interests.

CSi as Index Sponsor may transfer or delegate to another entity, at its discretion, the authority associated with the role of Index Sponsor under the Index Operating Manual.

This document is published for information purposes only and CSi expressly disclaims (to the fullest extent permitted by applicable law) all warranties (express, statutory or implied) regarding this document the Core Index Methodology or the Index, including but not limited to all warranties of merchantability, fitness for a particular purpose of use and all warranties arising from course of performance, course of dealing or usage of trade and their equivalents under applicable laws of any jurisdiction.

CSi or its affiliates may offer securities or other financial products the return on which is linked to the performance of the Index. This document is not to be used or considered as an offer or solicitation to buy or subscribe for such financial products nor is it to be considered to be or to contain any advice or a recommendation with respect to such financial products. Before making an investment decision in relation to such financial products one should refer to the prospectus or other disclosure document relating to such financial products.

Trading and other transactions by CSi and/or its affiliates in the futures contracts comprising the Index and the underlying commodities may affect the value of the Index, and there may be conflicts of interest between investors in the Index and CSi and/or its affiliates. The Index is based on commodities futures contracts as described in the Core Index Methodology. CSi and/or its affiliates actively trade futures contracts and options on futures contracts on these commodities. CSi and/or its affiliates also actively enter into or trade and market securities, swaps, options, derivatives, and related instruments which are linked to the performance of these commodities or are linked to the performance of the Index. CSi and/or its affiliates may underwrite or issue other securities or financial instruments indexed to the Index, and CSi or its affiliates may license the Index for publication or for use by unaffiliated third parties. These activities could present conflicts of interest and could affect the value of the Index. For instance, a market maker in a financial instrument linked to the performance of the Index may expect to hedge some or all of its position in that financial instrument. Purchase (or selling) activity in the futures contracts included in the Index in order to hedge the market maker’s position in the financial instrument may affect the market price of such futures contracts included in the Index, which in turn may affect the value of the Index. With respect to any of the activities described above, neither CSi nor its affiliates has any obligation to take the needs of any investors in the Index into consideration at any time.

CSi (including its officers, employees and delegates) shall not be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with anything done, determined, interpreted, amended or selected (or omitted to be done, determined or selected) by it in connection with the Core Index Methodology or the Index. Without prejudice to the generality of the foregoing, CSi shall not be liable for any loss suffered by any party as a result of any determination, calculation, interpretation, amendment or selection it makes (or fails to make) in relation to the construction or the valuation of the Index and, once made, CSi shall not be under any obligation to revise any calculation, determination, amendment, interpretation or selection

made by it for any reason. Neither CSi nor any of its affiliates makes any warranty or representation whatsoever, express or implied, as to the results to be obtained from the use of the Index, or as to the performance and/or the value thereof at any time (past, present or future).

CSi as Index Sponsor (including its officers, employees and delegates) has no obligation and will not take into account the interests of any investors in transactions or securities linked in whole or in part to the Index when determining, composing or calculating such Index.

CSi as Index Sponsor or as Index Calculation Agent may delegate to an affiliate or a third party some or all of its functions and calculations in respect of the Index.

The Core Index Methodology is proprietary to CSi. Neither CSi nor any of its affiliates shall be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with any change in any such model, or determination or removal in respect of such model (or any omissions to make any such change, determination or removal).

The performance of the Index will depend, inter alia, on the performance of the underlyings in the Index components and the performance of the Core Index Methodology and CSi, therefore, makes no guarantee or representation of any kind in relation to the performance of the Index, the level of which may go down as well as up. Past performance of the Index is no guarantee of future performance.

CSi does not purport to be a source of information on market risks with respect to the underlyings in any Index component.

CSi as Index Sponsor or Index Calculation Agent does not warrant or guarantee the accuracy or timeliness of calculations of the Index value and does not warrant or guarantee the availability of an Index value on any particular date or at any particular time.

CSi is under no obligation to monitor whether or not a commodity disruption event (as defined in the Index Rules) has occurred and shall not be liable for any losses resulting from (i) any determination that a commodity disruption event has occurred or has not occurred in relation to an Index component in the Index, (ii) the timing relating to the determination that a commodity disruption event has occurred in relation to an Index component in the Index or (iii) any actions taken or not taken by CSi as a result of such determination that a commodity disruption event has occurred.

Unless otherwise specified, CSi shall make all calculations, determinations, amendments, interpretations and selections in respect of the Index. CSi (including its officers, employees and delegates) shall have no responsibility for good faith errors or omissions in its calculations, determinations, amendments, interpretations and selections as provided in the Core Index Methodology. The calculations, determinations, amendments, interpretations and selections of CSi shall be made by it in accordance with the Core Index Methodology and the Index Parameters, acting in its sole, absolute and unfettered discretion, but in good faith (having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of CSi responsible for making the relevant calculations, determinations, amendments, interpretations and selections). For the avoidance of doubt, any calculations or determinations made by CSi under the Core Index Methodology on an estimated basis shall not be revised following the making of such calculation or determination.

CSi may supplement, amend (in whole or in part), revise or withdraw the Index Operating Manual at any time if the Index is no longer calculable under the Index Operating Manual. Such a supplement, amendment, revision or withdrawal may lead to a change in the way the Index is calculated or constructed. CSi may determine that a change to the Index Operating Manual is required to address an error, ambiguity or omission. Such changes, for example, may include changes to eligibility requirements or construction as well as changes to the Core Index Methodology

All amendments to the Index Operating Manual are proposed by the Index Advisory Committee via its members. The proposed changes are approved or rejected by the Framework Steering Committee and are documented in the Index Operating Manual.

CSi will apply the Credit Suisse Commodity Index Framework Operating Manual in a reasonable manner and in doing so may rely upon various sources of market information.

No person may reproduce or disseminate the information contained in this document without the prior written consent of CSi as Index Sponsor. This document is not intended for distribution to, or use by any person in a jurisdiction where such distribution or use is prohibited by law or regulation.

The Index Operating Manual shall be governed by and construed in accordance with English law.

CSI is authorised and regulated in the United Kingdom by the Financial Services Authority (“**FSA**”). Notwithstanding that CSI is so regulated the rules of the FSA are not incorporated into this document.

The Index Sponsor and the Index Calculation Agent are the same entity and the members of the Framework steering committee, and Index advisory committee may be employed by Credit Suisse and CSI or its affiliates may be the issuer of securities linked to the Index. CSI and its affiliates may, therefore, in each of its capacities face a conflict in its obligations in carrying out such role with investors in the securities and may resolve such conflict in its own interests.

CSI as Index Sponsor may transfer or delegate to another entity, at its discretion, the authority associated with the role of Index Sponsor under the Index Operating Manual.

This document is published for information purposes only and CSI expressly disclaims (to the fullest extent permitted by applicable law) all warranties (express, statutory or implied) regarding this document the Core Index Methodology or the Index, including but not limited to all warranties of merchantability, fitness for a particular purpose of use and all warranties arising from course of performance, course of dealing or usage of trade and their equivalents under applicable laws of any jurisdiction.

CSI or its affiliates may offer securities or other financial products the return on which is linked to the performance of the Index. This document is not to be used or considered as an offer or solicitation to buy or subscribe for such financial products nor is it to be considered to be or to contain any advice or a recommendation with respect to such financial products. Before making an investment decision in relation to such financial products one should refer to the prospectus or other disclosure document relating to such financial products.

Trading and other transactions by CSI and/or its affiliates in the futures contracts comprising the Index and the underlying commodities may affect the value of the Index, and there may be conflicts of interest between investors in the Index and CSI and/or its affiliates. The Index is based on commodities futures contracts as described in the Core Index Methodology. CSI and/or its affiliates actively trade futures contracts and options

on futures contracts on these commodities. CSi and/or its affiliates also actively enter into or trade and market securities, swaps, options, derivatives, and related instruments which are linked to the performance of these commodities or are linked to the performance of the Index. CSi and/or its affiliates may underwrite or issue other securities or financial instruments indexed to the Index, and CSi or its affiliates may license the Index for publication or for use by unaffiliated third parties. These activities could present conflicts of interest and could affect the value of the Index. For instance, a market maker in a financial instrument linked to the performance of the Index may expect to hedge some or all of its position in that financial instrument. Purchase (or selling) activity in the futures contracts included in the Index in order to hedge the market maker's position in the financial instrument may affect the market price of such futures contracts included in the Index, which in turn may affect the value of the Index. With respect to any of the activities described above, neither CSi nor its affiliates has any obligation to take the needs of any investors in the Index into consideration at any time.

CSi (including its officers, employees and delegates) shall not be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with anything done, determined, interpreted, amended or selected (or omitted to be done, determined or selected) by it in connection with the Core Index Methodology or the Index. Without prejudice to the generality of the foregoing, CSi shall not be liable for any loss suffered by any party as a result of any determination, calculation, interpretation, amendment or selection it makes (or fails to make) in relation to the construction or the valuation of the Index and, once made, CSi shall not be under any obligation to revise any calculation, determination, amendment, interpretation or selection made by it for any reason. Neither CSi nor any of its affiliates makes any warranty or representation whatsoever, express or implied, as to the results to be obtained from the use of the Index, or as to the performance and/or the value thereof at any time (past, present or future).

CSi as Index Sponsor (including its officers, employees and delegates) has no obligation and will not take into account the interests of any investors in transactions or securities linked in whole or in part to the Index when determining, composing or calculating such Index.

CSi as Index Sponsor or as Index Calculation Agent may delegate to an affiliate or a third party some or all of its functions and calculations in respect of the Index.

The Core Index Methodology is proprietary to CSi. Neither CSi nor any of its affiliates shall be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with any change in any such model, or determination or removal in respect of such model (or any omissions to make any such change, determination or removal).

The performance of the Index will depend, inter alia, on the performance of the underlyings in the Index components and the performance of the Core Index Methodology and CSi, therefore, makes no guarantee or representation of any kind in relation to the performance of the Index, the level of which may go down as well as up. Past performance of the Index is no guarantee of future performance.

CSi does not purport to be a source of information on market risks with respect to the underlyings in any Index component.

CSi as Index Sponsor or Index Calculation Agent does not warrant or guarantee the accuracy or timeliness of calculations of the Index value and does not warrant or guarantee the availability of an Index value on any particular date or at any particular time.

CSi is under no obligation to monitor whether or not a commodity disruption event (as defined in the Index Rules) has occurred and shall not be liable for any losses resulting from (i) any determination that a commodity disruption event has occurred or has not occurred in relation to an Index component in the Index, (ii) the timing relating to the determination that a commodity disruption event has occurred in relation to an

Index component in the Index or (iii) any actions taken or not taken by CSI as a result of such determination that an commodity disruption event has occurred.

Unless otherwise specified, CSI shall make all calculations, determinations, amendments, interpretations and selections in respect of the Index. CSI (including its officers, employees and delegates) shall have no responsibility for good faith errors or omissions in its calculations, determinations, amendments, interpretations and selections as provided in the Core Index Methodology. The calculations, determinations, amendments, interpretations and selections of CSI shall be made by it in accordance with the Core Index Methodology and the Index Parameters, acting in its sole, absolute and unfettered discretion, but in good faith (having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of CSI responsible for making the relevant calculations, determinations, amendments, interpretations and selections). For the avoidance of doubt, any calculations or determinations made by CSI under the Core Index Methodology on an estimated basis shall not be revised following the making of such calculation or determination.

CSI may supplement, amend (in whole or in part), revise or withdraw the Index Operating Manual at any time if the Index is no longer calculable under the Index Operating Manual. Such a supplement, amendment, revision or withdrawal may lead to a change in the way the Index is calculated or constructed. CSI may determine that a change to the Index Operating Manual is required to address an error, ambiguity or omission. Such changes, for example, may include changes to eligibility requirements or construction as well as changes to the Core Index Methodology

All amendments to the Index Operating Manual are proposed by the Index Advisory Committee via its members. The proposed changes are approved or rejected by the Framework Steering Committee and are documented in the Index Operating Manual.

CSI will apply the Credit Suisse Commodity Index Framework Operating Manual in a reasonable manner and in doing so may rely upon various sources of market information.

No person may reproduce or disseminate the information contained in this document without the prior written consent of CSI as Index Sponsor. This document is not intended for distribution to, or use by any person in a jurisdiction where such distribution or use is prohibited by law or regulation.

CREDIT SUISSE EMERGING MARKETS INFRASTRUCTURE INDEX

The Credit Suisse Emerging Markets Infrastructure Index is described in the “Rules to the Credit Suisse Emerging Markets Infrastructure Index”, as amended from time to time (the “**Index Rules**”). The index is calculated and maintained by Standard & Poor’s (the “**Index Calculation Agent**”) based on a methodology developed by Credit Suisse Securities (Europe) Limited (the “**Index Creator**”). The Index Rules are available on the Standard & Poor’s website, www.customindices.standardandpoors.com (provided that such website does not form part of this index description). This summary description is qualified in all respects by and is subject to the Index Rules (provided that the Index Rules do not form part of this Base Prospectus or the Terms and Conditions of the Securities).

HOLT, a service of Credit Suisse, maintains a database that currently contains a global universe of approximately 18,000 stocks. HOLT has also developed a scoring model to determine whether a particular stock is undervalued, has good stock market momentum and displays strong corporate performance.

The emerging markets infrastructure universe contains companies active in agriculture, power and utilities, or infrastructure and that derive at least 15% of revenues from emerging markets. At present, the emerging markets infrastructure universe contains 284 companies, as set out in the Index Rules but the number may vary over time.

The universe of eligible companies for the index comprises those 200 stocks in the HOLT database listed on a regulated stock exchange with the highest liquidity out of the emerging markets infrastructure universe. The constituents of the index are the 40 stocks in the universe of eligible companies that are most attractive according to the HOLT scoring model.

For further details with respect to HOLT and information as to the historic and current performance and volatility of the index, please refer to www.credit-suisse.com/holtmethodology (provided that such website does not form part of this index description).

The index is calculated in total-return and synthetic price-return forms in US Dollars, Euro, Swiss Francs and Japanese Yen.

The rules for construction, calculation and re-balancing of the index are set out in the Index Rules.

CREDIT SUISSE FORTINBRAS THREE FACTOR MODEL INDICES

The Credit Suisse Fortinbras Three Factor Model Indices are listed in the table below (each an “**Index**” and together the “**Indices**”). Each Index is described in the relevant Index rules as further set out in the table below, as amended from time to time (the “**Index Rules**”). Each Index is calculated and maintained by Credit Suisse International (the “**Index Calculation Agent**” or “**Index Sponsor**”) based on a methodology developed by the Index Sponsor and Fortinbras Asset Management (the “**Index Adviser**”). The relevant Index Rules are available upon request in writing by email to the following address: List.Fortinbrasrules@credit-suisse.com. This summary description is qualified in all respects by and is subject to the relevant Index Rules (provided that the relevant Index Rules do not form part of this Base Prospectus or the Terms and Conditions of the Securities).

The Indices are based on the Fortinbras Three Factor Model (the “**Model**”) which signals long (short) positions if the current market prices are higher (lower) than the maximum (minimum) of a historical reference period.

The Indices are intended to benefit from directional interest rate moves by taking exposure to long or short positions in interest swap markets in three tenors (i.e. 1 year swap, 2 year swaps and 5 year swaps), in four different currencies (Euro, US Dollars, Swiss Francs and British Pounds) and simultaneously retaining an exposure to a cash balance invested at the money market rate (for Indices calculated in total return form only), as defined in the Index Rules. The currency of each Index is set out in the table below. The Model is run separately for each currency/tenor using historical data. The positions are then communicated by the Index Adviser to the Index Calculation Agent for the calculation of the Indices.

For further details with respect to the Indices and information as to the historic and current performance and volatility of the Indices, please refer to the Bloomberg Page set out in the table below (provided that such pages do not form part of this index description).

The rules for construction, calculation and re-balancing of each Index are set out in the relevant Index Rules.

CREDIT SUISSE FX ROLLING OPTIMISED CARRY INDICES

There are 21 Credit Suisse FX Rolling Optimised Carry Indices, each as listed in the table below (each an “**Index**” and together the “**Indices**”). Each Index is described in the relevant Index rules as further set out in the table below, as amended from time to time (the “**Index Rules**”). Each Index is calculated and maintained by FID Index Group, a department of Credit Suisse International (the “**Index Calculation Agent**”) based on a methodology developed by Credit Suisse International (the “**Index Creator**”). This summary description is qualified in all respects and is subject to the relevant Index Rules (provided that the Index Rules do not form part of this Base Prospectus or the Terms and Conditions of the Securities).

In addition, each Index which is specified as ‘Funded’ in the table below simultaneously holds a cash balance (in the relevant Base Currency) invested at the risk free rate. The strategy is designed to profit from the FX market anomaly often referred to as the “forward bias” where the spot rate does not, on average, follow the forward.

The “Base Currency” of each Index is set out in the table below. Each Index which is specified to be a “ROCI 18 Index” in the table below measures the growth of an optimised portfolio constructed from a universe of 17 currencies (from the list of specified ‘G10 Currencies’ and ‘Emerging Market Currencies’ below) against the applicable Base Currency. Each Index which is specified to be a “ROCI 10” Index in the table below measures the growth of an optimised portfolio constructed from a universe of 9 currencies (from the list of specified ‘G10 Currencies’ below) against the applicable Base Currency.

The rules for construction, calculation and re-balancing of each Index are set out in the relevant Index Rules.

CREDIT SUISSE GAINS INDICES

The Credit Suisse GAINS Indices are listed in the table below (each an “**Index**” and together the “**Indices**”). Each Index is part of the Credit Suisse Commodity Framework (the “**Framework**”) and is documented by two separate master terms, the generic “Core Index Methodology” and the “Index Parameters” specific to each Index, which together constitute the Index Operating Manual for each Index, as amended from time to time (the “**Index Rules**”). The Framework is designed to handle a generalised commodity forward curve instrument of an entire liquid commodity forward curve for each of the included commodities. Each Index is calculated and maintained by Credit Suisse International (the “**Index Calculation Agent**” or “**Index Sponsor**”) based on a methodology developed by the Index Sponsor. The relevant Index Rules are available on Credit Suisse’s website, www.credit-suisse.com/indices (provided that such website does not form part of this index description). This summary description is qualified in all respects by and is subject to the relevant Index Rules (provided that the relevant Index Rules do not form part of this Base Prospectus or the Terms and Conditions of the Securities).

Each Index is a long only commodity Index which seeks to outperform a static index with the same base weights by actively changing the base weights of the various underlying commodities dynamically over time.

Each Index uses monthly “votes” from the commodity trading units at Credit Suisse’s alliance partner, Glencore International AG (“**Glencore**”), to determine the adjusted weights for each commodity in the Index based on Glencore’s outlook on the physical market for each commodity.

For each commodity in an Index, Credit Suisse uses the Glencore vote to adjust the base weights such that relative to the static index, a bearish vote represents an underweighting of this commodity in the Index and a bullish vote represents an overweighting of this commodity in the Index.

Each Index is calculated in excess return form and total return form.

For further details with respect to the Indices and information as to the historic and current performance and volatility of the Indices, please refer to www.credit-suisse.com/indices (provided that such website does not form part of this index description).

The rules for construction, calculation and re-balancing of each Index are set out in the relevant Index Rules.

Disclaimer

This disclaimer extends to Credit Suisse International (“**CSi**”), its affiliates or its designate in any of its capacities as Index Sponsor, Index Calculation Agent and its constitution of the Index advisory committee, and Framework steering committee, and any reference to CSi shall also mean a reference to its affiliates or designates in any such capacity. References to “this document” refers to the relevant section of the Index Rules.

CSi is authorised and regulated in the United Kingdom by the Financial Services Authority (“**FSA**”). Notwithstanding that CSi is so regulated the rules of the FSA are not incorporated into this document.

The Index Sponsor and the Index Calculation Agent are the same entity and the members of the Framework steering committee, and Index advisory committee may be employed by Credit Suisse and CSi or its affiliates may be the issuer of securities linked to the Index. CSi and its affiliates may, therefore, in each of its capacities face a conflict in its obligations in carrying out such role with investors in the securities and may resolve such conflict in its own interests.

CSi as Index Sponsor may transfer or delegate to another entity, at its discretion, the authority associated with the role of Index Sponsor under the Index Operating Manual.

This document is published for information purposes only and CSi expressly disclaims (to the fullest extent permitted by applicable law) all warranties (express, statutory or implied) regarding this document the Core Index Methodology or the Index, including but not limited to all warranties of merchantability, fitness for a particular purpose of use and all warranties arising from course of performance, course of dealing or usage of trade and their equivalents under applicable laws of any jurisdiction.

CSi or its affiliates may offer securities or other financial products the return on which is linked to the performance of the Index. This document is not to be used or considered as an offer or solicitation to buy or subscribe for such financial products nor is it to be considered to be or to contain any advice or a recommendation with respect to such financial products. Before making an investment decision in relation to such financial products one should refer to the prospectus or other disclosure document relating to such financial products.

Trading and other transactions by CSi and/or its affiliates in the futures contracts comprising the Index and the underlying commodities may affect the value of the Index, and there may be conflicts of interest between investors in the Index and CSi and/or its affiliates. The Index is based on commodities futures contracts as described in the Core Index Methodology. CSi and/or its affiliates actively trade futures contracts and options on futures contracts on these commodities. CSi and/or its affiliates also actively enter into or trade and market securities, swaps, options, derivatives, and related instruments which are linked to the performance of these commodities or are linked to the performance of the Index. CSi and/or its affiliates may underwrite or issue other securities or financial instruments indexed to the Index, and CSi or its affiliates may license the Index for publication or for use by unaffiliated third parties. These activities could present conflicts of interest and could affect the value of the Index. For instance, a market maker in a financial instrument linked to the performance of the Index may expect to hedge some or all of its position in that financial instrument. Purchase (or selling) activity in the futures contracts included in the Index in order to hedge the market maker’s position in the financial instrument may affect the market price of such futures contracts included in the Index, which in turn may affect the value of the Index. With respect to any of the activities described above, neither CSi nor its affiliates has any obligation to take the needs of any investors in the Index into consideration at any time.

CSi (including its officers, employees and delegates) shall not be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with anything done, determined, interpreted, amended or selected (or omitted to be done, determined or selected) by it in

connection with the Core Index Methodology or the Index. Without prejudice to the generality of the foregoing, CSi shall not be liable for any loss suffered by any party as a result of any determination, calculation, interpretation, amendment or selection it makes (or fails to make) in relation to the construction or the valuation of the Index and, once made, CSi shall not be under any obligation to revise any calculation, determination, amendment, interpretation or selection made by it for any reason. Neither CSi nor any of its affiliates makes any warranty or representation whatsoever, express or implied, as to the results to be obtained from the use of the Index, or as to the performance and/or the value thereof at any time (past, present or future).

CSi as Index Sponsor (including its officers, employees and delegates) has no obligation and will not take into account the interests of any investors in transactions or securities linked in whole or in part to the Index when determining, composing or calculating such Index.

CSi as Index Sponsor or as Index Calculation Agent may delegate to an affiliate or a third party some or all of its functions and calculations in respect of the Index.

The Core Index Methodology is proprietary to CSi. Neither CSi nor any of its affiliates shall be under any liability to any party on account of any loss suffered by such party (however such loss may have been incurred) in connection with any change in any such model, or determination or removal in respect of such model (or any omissions to make any such change, determination or removal).

The performance of the Index will depend, inter alia, on the performance of the underlyings in the Index components and the performance of the Core Index Methodology and CSi, therefore, makes no guarantee or representation of any kind in relation to the performance of the Index, the level of which may go down as well as up. Past performance of the Index is no guarantee of future performance.

CSi does not purport to be a source of information on market risks with respect to the underlyings in any Index component.

CSi as Index Sponsor or Index Calculation Agent does not warrant or guarantee the accuracy or timeliness of calculations of the Index value and does not warrant or guarantee the availability of an Index value on any particular date or at any particular time.

CSi is under no obligation to monitor whether or not a commodity disruption event (as defined in the Index Rules) has occurred and shall not be liable for any losses resulting from (i) any determination that a commodity disruption event has occurred or has not occurred in relation to an Index component in the Index, (ii) the timing relating to the determination that a commodity disruption event has occurred in relation to an Index component in the Index or (iii) any actions taken or not taken by CSi as a result of such determination that a commodity disruption event has occurred.

Unless otherwise specified, CSi shall make all calculations, determinations, amendments, interpretations and selections in respect of the Index. CSi (including its officers, employees and delegates) shall have no responsibility for good faith errors or omissions in its calculations, determinations, amendments, interpretations and selections as provided in the Core Index Methodology. The calculations, determinations, amendments, interpretations and selections of CSi shall be made by it in accordance with the Core Index Methodology and the Index Parameters, acting in its sole, absolute and unfettered discretion, but in good faith (having regard in each case to the criteria stipulated herein and (where relevant) on the basis of information provided to or obtained by employees or officers of CSi responsible for making the relevant calculations, determinations, amendments, interpretations and selections). For the avoidance of doubt, any calculations or determinations made by CSi under the Core Index Methodology on an estimated basis shall not be revised following the making of such calculation or determination.

CSi may supplement, amend (in whole or in part), revise or withdraw the Index Operating Manual at any time if the Index is no longer calculable under the Index Operating Manual. Such a supplement, amendment, revision or withdrawal may lead to a change in the way the Index is calculated or constructed. CSi may determine that a change to the Index Operating Manual is required to address an error, ambiguity or omission. Such changes, for example, may include changes to eligibility requirements or construction as well as changes to the Core Index Methodology

All amendments to the Index Operating Manual are proposed by the Index Advisory Committee via its members. The proposed changes are approved or rejected by the Framework Steering Committee and are documented in the Index Operating Manual.

CSi will apply the Credit Suisse Commodity Index Framework Operating Manual in a reasonable manner and in doing so may rely upon various sources of market information.

No person may reproduce or disseminate the information contained in this document without the prior written consent of CSi as Index Sponsor. This document is not intended for distribution to, or use by any person in a jurisdiction where such distribution or use is prohibited by law or regulation.

The Index Operating Manual shall be governed by and construed in accordance with English law.

The universe of eligible companies for the index comprises the following stocks from the HOLT database:

- 275 stocks with the highest market capitalisation issued by companies which are listed on a regulated stock exchange in United States or Canada;
- 300 stocks with the highest liquidity out of the 330 stocks with the highest market capitalisation issued by companies which are listed on a regulated stock exchange in United Kingdom, France, Germany, Italy, Netherlands or Spain; and
- 175 stocks with the highest market capitalisation issued by companies which are listed on a regulated stock exchange in Japan;

The index consists of two equally weighted sub-indices, the long total return index (the "**Long Index**") and the short total return index (the "**Short Index**"). The Long Index comprises those stocks that are most attractive according to the HOLT scoring model and the Short Index comprises those stocks that are least attractive according to the HOLT scoring model. The value of the index is calculated by taking the performance of the Long Index less the performance of the Short Index and the cost of borrowing the constituents of the Short Index.

TAXATION

The following is a summary of the withholding tax position (and, in the case of Switzerland, other tax issues) in respect of payments of the income from the Securities by the Issuer (or an agent appointed by it) in accordance with the terms and conditions of such Securities (“**Relevant Payments**”). It is limited to the country of incorporation of the Issuer and those countries in which admission to trading may be sought or offers for which a prospectus is required under the Prospectus Directive may be made pursuant to this Prospectus (“**Relevant Taxing Jurisdictions**”).

It does not relate to any other tax consequences or to withholdings in respect of payments by other persons (such as custodians, depositaries or other intermediaries) unless otherwise specified. Each investor should consult a tax adviser as to the tax consequences relating to its particular circumstances resulting from holding the Securities.

All payments in respect of the Securities by the Issuer or by an agent appointed by the Issuer will be subject to any applicable withholding taxes. However, as at the date hereof, no such taxes would be applicable in respect of any Relevant Payments in any Relevant Taxing Jurisdiction, except as specified below in relation to the countries so specified.

Switzerland

The following statements and discussions of certain Swiss tax considerations relevant to the purchase, ownership and disposition of Securities are of a general nature only and do not address every potential tax consequence of an investment in Securities under Swiss law. This summary is based on treaties, laws, regulations, rulings and decisions currently in effect, all of which are subject to change. **It does not address the tax consequences of the Securities in any jurisdiction other than Switzerland.** Potential investors will therefore need to consult their own tax advisers to determine the special tax consequences of the receipt, ownership and sale or other disposition of a Security.

Tax treatment depends on the individual tax situation of each investor and may be subject to change.

The Securityholders shall assume and be responsible to the proper governmental or regulatory authority for any and all taxes of any jurisdiction or governmental or regulatory authority, including without limitation, any state or local taxes, transfer taxes or fees, occupation taxes or other like assessments or charges that may be applicable to any payment delivered to them by the Issuer hereunder or applicable to the transactions covered hereby. The Issuer shall have the right, but not the duty, to withhold from any amounts otherwise payable to a Securityholder such amount as is necessary for the payment of any such taxes, fees, assessments or charges.

Swiss Withholding Tax: According to current Swiss tax law and the present practice of the Swiss Federal Tax Administration, payments in respect of the Securities and repayment of principal of the Securities by the Issuer acting through one of its branches outside of Switzerland should not be subject to Swiss withholding tax provided that the Issuer uses the proceeds outside of Switzerland. If the Issuer issues the Securities through its head office in Switzerland, the interest on the Securities may become subject to Swiss withholding tax at a rate of 35%.

Swiss Value Added Tax (“VAT”): The issue, transfer, exercise or redemption of Securities relating to securities or any income derived therefrom will normally not be subject to Swiss VAT. However, any respective input VAT will correspondingly not be recoverable.

Issue Stamp Tax and Securities Transfer Stamp Tax: According to current Swiss tax law and the present practice of the Swiss Federal Tax Administration, neither the issue of Securities, provided that the Issuer acting through a branch uses the proceeds outside of Switzerland, nor the transfer of Securities is normally subject to Issue Stamp Tax and Securities Transfer Stamp Tax. If the Issuer acting

through a branch uses the proceeds inside Switzerland the issuance (primary market) of the Securities could be subject to issuance stamp tax. Exceptions to these rules apply with regard to the Securities Transfer Stamp Tax to Securities which, due to specific features, are considered financing instruments, share-like or fund-like products for purposes of Swiss tax law. In this case, a Securities Transfer Stamp Tax of up to 0.3% of the consideration could be due on secondary market transactions in Securities, if a Swiss securities dealer ("**Effekthändler**"), as defined in art. 13 para. 3 of the Swiss Federal Act on Stamp Duties ("**Stempelabgabengesetz**"), is a party to the transaction or acts as an intermediary thereto. This applies likewise for primary market transaction of fund-like instruments.

If, upon the exercise or redemption of a Security, an underlying security is delivered to the holder of the Security, the transfer of the underlying security may be subject to Swiss Securities Transfer Tax of up to 0.15% in the case of an underlying security which has been issued by a Swiss resident issuer and of up to 0.3% in the case of an underlying security which has been issued by a non Swiss issuer, provided in both cases that a Swiss securities dealer is a party to the transaction or acts as an intermediary thereto. Certain exemptions may, inter alia, apply with regard to institutional investors such as mutual funds, life insurance companies and social security institutions.

Income Taxation of Non-Swiss tax resident Investors: Under present Swiss tax law, payments of interest on the Securities and repayment of principal of the Securities to a holder who is a non-resident of Switzerland and who, during the taxation year has not engaged in a trade or business through a permanent establishment within Switzerland and who is not subject to income taxation in Switzerland for any other reason will not be liable to Swiss federal, cantonal or communal income taxation. Such an investor that is not a tax resident in Switzerland, will also not be liable to Swiss federal, cantonal or communal income taxation on gains realized during the taxation year on the sale or redemption of a Security.

Income Taxation of Securities Held by Swiss tax resident Individuals as Part of Private Property: Gains or losses realized upon a sale or other disposition by individuals holding a Security as part of their private property (private capital gain) are as a rule not subject to income taxation or are not deductible from taxable income respectively. This applies likewise to option premium received or paid by the holder of a Security that is treated for Swiss tax purposes as a transparent structured product consisting of part debt and part option.

Capital gains may, however, be subject to income taxation if a Security or a distinguishable part thereof qualifies as a bond where the predominant part of the annual yield on which is paid in the form of a one-time payment ("**überwiegende Einmalverzinsung**"). Losses arising from such bonds may be deducted from gains recognized from similar instruments during the same tax period.

Income derived from a Security, which is neither a private capital gain, as set out above nor a repayment of paid in capital (or face value in the case of share-like instruments) nor an option premium is as a rule subject to tax. This applies, inter alia, to any issuance discount, repayment premium, other guaranteed payments (except repayment of capital or option premium) or any combination thereof. Payments or credits received by a holder because of dividends, interest etc. of the underlying may be subject to income tax for such holder. This may apply likewise to payments or credits derived from underlying funds.

Income Taxation of Securities Held by Swiss tax resident Individuals or Entities as Part of Business Property: Income realized and losses justified by business reasons incurred on Securities as part of the business property of individuals (including deemed securities dealers due to frequent dealing, debt financing or similar criteria; so called "**Wertschriftenhändler**") or entities resident in Switzerland are included in the taxable income or may be deducted from the taxable income, respectively, of such person or entity.

European Union Directive on the Taxation of Savings Income, Swiss Agreement: The European Union ("EU") adopted a directive on the taxation of savings income in the form of interest payments (European Directive 2003/48/EC of 3 June 2003) (the "**Directive**"). The Directive requires Member States to provide to the tax authorities of other Member States details of payments of interest and other similar income paid by a person to an individual in another Member State, except that Austria, Belgium and Luxembourg will instead impose a withholding system for a transitional period unless during such period they elect otherwise. A number of third countries and territories, including Switzerland, have adopted similar measures to the Directive. On 26 October 2004, the European Community and Switzerland entered into an agreement on the taxation of savings income pursuant to which Switzerland adopted measures equivalent to those of the Directive.

On the basis of this Agreement, Switzerland introduced a withholding tax on interest payments and other similar income paid in Switzerland by a paying agent to an individual resident in an EU Member State ("**EU Withholding Tax**"). The rate of withholding is 15 per cent. for the first three years from 1 July 2005, 20 per cent. for the next three years and 35 per cent. thereafter, with the option for such an individual to authorise the paying agent to disclose details of the payments to the tax authorities of the relevant Member State in lieu of the withholding. The beneficial owner of the interest payments may be entitled to a tax credit or refund of the withholding, if any, provided that certain conditions are met.

United Kingdom

Provided that the Issuer continues to be a bank within the meaning of section 991 of the Income Tax Act 2007 (the "Act"), and provided that the interest on the Securities is paid in the ordinary course of its business within the meaning of section 878 of the Act, the Issuer, acting through its London Branch, will be entitled to make payments of interest under the Securities without withholding or deduction for or on account of United Kingdom income tax.

Payments of interest on the Securities may also be made without withholding or deduction for or on account of United Kingdom income tax if the Securities are listed on a "recognised stock exchange" within the meaning of section 1005 of the Act.

Interest on the Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where interest on the Securities is paid to a person who belongs in the United Kingdom for United Kingdom tax purposes and, at the time the payment is made, the Issuer reasonably believes (and any person by or through whom interest on the Securities is paid reasonably believes) that the beneficial owner is within the charge to United Kingdom corporation tax as regards the payment of interest; provided that HM Revenue & Customs have not given a direction (in circumstances where it has reasonable grounds to believe that the above exemption is not available in respect of such payment of interest at the time the payment is made) that the interest should be paid under deduction of tax.

Interest on the Securities may also be paid without withholding or deduction for or on account of United Kingdom tax where the maturity of the Securities is less than 365 days.

In other cases, an amount must generally be withheld from payments of interest on the Securities issued by the Issuer acting through its London Branch on account of United Kingdom income tax at the lower rate (currently 20 per cent.). However, where an applicable double tax treaty provides for a lower rate of withholding tax (or for no tax to be withheld) in relation to a Securityholder, HM Revenue & Customs can issue a notice to the Issuer to pay interest to the Securityholder without deduction of tax (or for interest to be paid with tax deducted at the rate provided for in the relevant double tax treaty).

Securityholders who are individuals may wish to note that HM Revenue & Customs have power to obtain information (including the name and address of the beneficial owner of the interest) from any person in the United Kingdom who either pays interest to or receives interest for the benefit of an individual. HM Revenue & Customs also have power to obtain information from any person in the United Kingdom who pays amounts payable on the redemption of Security which are deeply discounted securities for the purposes of the Income Tax (Trading and Other Income) Act 2005 to, or receives such amounts for the benefit of, an individual. Such information may include the name and address of the beneficial owner of the amount payable on redemption. Any information obtained may, in certain circumstances, be exchanged by HM Revenue & Customs with the tax authorities of the jurisdiction in which the Securityholder is resident for tax purposes.

Guernsey

Payments made by the Issuer acting through its Guernsey Branch will not be subject to any withholding tax on account of Guernsey taxes.

Bahamas

Payments made by the Issuer acting through its Nassau Branch will not be subject to any withholding tax on account of Bahamian taxes.

Luxembourg

The following provisions are only relevant if a paying agent has been appointed in Luxembourg and the terms and conditions contemplate the possibility of Securities being issued in definitive form and held outside a clearing system.

Under Luxembourg tax law currently in effect and with the possible exception of interest paid to individual holders of Securities and to certain entities, there is no Luxembourg withholding tax on payments of interest (including accrued but unpaid interest). There is also no Luxembourg withholding tax, with the possible exception of payments made to individual holders of Securities and to certain entities, upon repayment of principal in case of reimbursement, redemption, repurchase or exchange of the Securities.

Taxation of Luxembourg non-residents

Under the Luxembourg laws dated 21 June 2005 implementing the European Council Directive 2003/48/EC (the “**Savings Directive**”) and several agreements concluded between Luxembourg and certain dependent or associated territories of the European Union (“**EU**”), a Luxembourg-based paying agent (within the meaning of the Savings Directive) is required to withhold tax on interest and other similar income paid by it to (or under certain circumstances, to the benefit of) an individual resident in another Member State or in certain EU dependent or associated territories, unless the beneficiary of the interest payments elects for the procedure of exchange of information or for the tax certificate procedure. The same treatment will apply to payments of interest and other similar income made to certain “residual entities” within the meaning of Article 4.2 of the Savings Directive established in a Member State or in certain EU dependent or associated territories (i.e., entities which are not legal persons (the Finnish and Swedish companies listed in Article 4.5 of the Savings Directive are not considered as legal persons for this purpose), whose profits are not taxed under the general arrangements for the business taxation, that are not UCITS recognised in accordance with the Council Directive 85/611/EEC or similar collective investment funds located in Jersey, Guernsey, the Isle of Man, the Turks and Caicos Islands, the Cayman Islands, Montserrat or the British Virgin Islands and have not opted to be treated as UCITS recognised in accordance with the Council Directive 85/611/EEC). The withholding tax rate is initially 15

per cent., increasing steadily to 20 per cent. and to 35 per cent. The withholding tax system will only apply during a transitional period, the ending of which depends on the conclusion of certain agreements relating to information exchange with certain third countries.

Taxation of Luxembourg residents

Interest payments made by Luxembourg paying agents (defined in the same way as in the Savings Directive) to Luxembourg individual residents are subject to a 10 per cent. withholding tax.

EU Savings Directive

The following provisions are only relevant if a paying agent has been appointed in Austria, Belgium or Luxembourg and the terms and conditions contemplate the possibility of Securities being issued in definitive form and held outside a clearing system.

Under EC Council Directive 2003/48/EC on the taxation of savings income, each Member State is required to provide to the tax authorities of another member state details of payments of interest or other similar income paid by a paying agent within its jurisdiction to, or collected by such a person for, an individual resident in that other Member State; however for a transitional period, Austria, Belgium and Luxembourg will instead operate a withholding system (the “**Source Tax**”) for a transitional period in relation to such payments, unless the beneficiary of the interest payments elects for the exchange of information. The Source Tax is initially 15 per cent., increasing to 20 per cent. and to 35 per cent. The end of this transitional period depends on the conclusion of certain other agreements relating to exchange of information with certain other countries.

A number of non-EU countries, including Switzerland, (“**Third Countries**”) and certain dependent or associated territories of certain Member States (“**Dependent and Associated Territories**”), have adopted similar measures in relation to payments of interest or other similar income paid by a paying agent within its jurisdiction to, or collected by such a person for, an individual resident in another Member State, or certain Third Country or Dependent and Associated Territories.

Finland

The following provisions are only relevant in respect of Securities which are to be held within the Euroclear Finland system.

There is no Finnish withholding tax (*lähdevero*) applicable on payments made by the Issuer in respect of the Securities. Payment of the redemption gain (if any) or interest on the Securities through a Finnish paying agent to individuals resident in Finland will be subject to an advance tax withheld by the Finnish paying agent at the rate of 28 per cent. Such advance tax withheld (*ennakonpidätys*) will be used for the payment of the individual's final taxes.

Payment of the redemption gain (if any) or interest on the Securities through a Finnish paying agent to corporate entities resident in Finland will not be subject to any Finnish advance or withholding taxes.

Sweden

The following provisions are only relevant in respect of Securities which are to be held within the Euroclear Sweden system.

There is no Swedish withholding tax (*källskatt*) applicable on payments made by the Issuer in respect of the Securities. Sweden operates a system of preliminary tax (*preliminärskatt*) to secure payment of taxes. In the context of the Securities a preliminary tax of 30 per cent. will be deducted from all payments of interest in respect of the Securities made to any individuals or estates that are resident in Sweden for

tax purposes. Depending on the relevant holder's overall tax liability for the relevant fiscal year the preliminary tax may contribute towards, equal or exceed the holder's overall tax liability with any balance subsequently to be paid by or to the relevant holder, as applicable.

OFFERS

An investor intending to acquire or acquiring any Securities from an Offeror will do so, and offers and sales of the Securities to an investor by an Offeror will be made, in accordance with any terms and other arrangements in place between such Offeror and such investor including as to price, allocations and settlement arrangements. Neither the Issuer nor the Dealer will be a party to any such arrangements with investors (except where the Issuer or Dealer is itself the relevant Offeror) and, accordingly, this Base Prospectus and any Final Terms may not contain such information and, in such case, an investor must obtain such information from the relevant Offeror. Investors should however note the following:

Amount of the offer: The nominal amount or number of Securities subject to the offer may be specified in the Final Terms. If the nominal amount or number of Securities subject to the offer is not specified in the Final Terms, the Final Terms may specify that it will be determined on the basis of the demand for the Securities and prevailing market conditions and be published in accordance with Article 8 of the Prospectus Directive.

Offer Price: If pertinent, the offer price per Security may either (a) be specified in the Final Terms or (b) if the Final Terms so specify, be determined on the basis of the prevailing market conditions on or around the date specified in the relevant Final Terms in which event it will not be greater than the maximum price specified in the relevant Final Terms and will be published in accordance with Article 8 of the Prospectus Directive.

Publication of a Supplement: If the Issuer publishes a supplement to this Base Prospectus pursuant to Article 16 of the Prospectus Directive which relates to the Issuer or the Securities, investors who have already agreed to purchase Securities before the supplement is published shall have the right to withdraw their acceptances by informing the relevant Distributor in writing within 2 working days (or such other longer period as may mandatorily apply in the relevant country) of publication of the supplement. The terms and conditions of the Securities and the terms on which they are offered and issued will be subject to the provisions of any such supplement.

SELLING RESTRICTIONS

General

Except as set out in this Base Prospectus or the relevant Final Terms, no action has been or will be taken that would permit a public offering of the Securities or possession or distribution of any offering material in relation to the Securities in any jurisdiction where action for that purpose is required.

No offers, sales or deliveries of the Securities, or distribution of any offering material relating to the Securities, may be made in or from any jurisdiction except in circumstances which will result in compliance with any applicable laws and regulations and will not impose any obligations on the Issuer or the Dealer.

United States

The Securities have not been and will not be registered under the U.S. Securities Act of 1933 (the “**Securities Act**”) and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons except in certain transactions exempt from the registration requirements of the Securities Act. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

Bearer Securities governed by Swiss law which may be exchanged for definitive securities will be subject to U.S. tax law requirements and may not be offered, sold or delivered within the United States or its possessions or to a United States person, except in certain transactions permitted by U.S. tax regulations. Terms used in this paragraph have the meanings given to them by the U.S. Internal Revenue Code of 1986 and regulations thereunder.

The Dealer may not, except as permitted by applicable law, offer, sell or deliver the Securities (i) as part of their distribution at any time or (ii) otherwise until 40 days after the later of the commencement of the offering and the Issue Date within the United States or to, or for the account or benefit of, U.S. persons, and it will be required to send to each other Dealer to which it sells Securities during the distribution compliance period a confirmation or other notice setting forth the restrictions on offers and sales of the Securities within the United States or to, or for the account or benefit of, U.S. persons. Terms used in this paragraph have the meanings given to them by Regulation S under the Securities Act.

In addition, until 40 days after the commencement of the offering, an offer or sale of Securities within the United States by the Dealer that is not participating in the offering may violate the registration requirements of the Securities Act.

The following provisions shall also apply in relation to Swiss law Securities where the Final Terms specify that TEFRA D Rules are applicable:

- (1) Except to the extent permitted under U.S. Treas. Reg. § 1.163-5(c)(2)(i)(D) (the “**D Rules**”),
 - (a) the Dealer is required to represent and agree that it has not offered or sold, and during the Restricted Period will not offer or sell, Securities to a person who is within the United States or its possessions or to a United States person, and that it will use reasonable efforts to sell the Securities in Switzerland, and
 - (b) the Dealer is required to represent and agree that it has not delivered, and will not deliver within the United States or its possessions, Securities that are sold during the Restricted Period.

- (2) The Dealer is required to represent and agree that it has, and will have in effect throughout the Restricted Period, procedures reasonably designed to ensure that its employees or agents who are directly engaged in selling Securities are aware that Securities may not be offered or sold during the Restricted Period to a person who is within the United States or its possessions or to a United States person, except as permitted by the D Rules.
- (3) The Dealer is required to represent and agree that more than 80 per cent. of (a) the aggregate principal amount of the Securities, (b) the value of the Securities, measured by the proceeds received by distributors with respect of the Securities, and (c) the value of the Securities, measured by the proceeds received by the Issuer with respect to the Securities, will be offered and sold to non-distributors by distributors maintaining an office in Switzerland.
- (4) The Dealer is required to represent and agree that if it is a U.S. person, it is accepting the Securities for purposes of resale in connection with their original issuance and if it retains Securities for its own account, it will do so only in accordance with the requirements of Regulation § 1.163-5 (c) (2) (i) (D) (6). Whether or not an offer, sale or delivery is treated as made within the United States or its possessions or to a U.S. person will depend upon the provisions of the D Rules.
- (5) With respect to each affiliate that acquires from the Dealer Securities for the purpose of offering or selling Securities during the Restricted Period, the Dealer is required to repeat and confirm the representations and agreements contained in sub-clauses (1) and (2) on its behalf.

Terms used in these provisions have the meaning given to them by the U.S. Internal Revenue Code and regulations thereunder, including the D Rules.

The "**Restricted Period**" means that period expiring on 40 days after the later of the commencement of the relevant offering and the Issue Date, except that any offer or sale of Securities by a Dealer shall be deemed to be during the Restricted Period if the Dealer holds those Securities as part of an unsold allotment.

United Kingdom

The Dealer may only communicate or cause to be communicated an invitation or inducement to engage in investment activity (within the meaning of section 21 of the Financial Services and Markets Act 2000 (the "**FSMA**")) received by it in connection with the issue or sale of the Securities in circumstances in which section 21(1) of the FSMA would not, if the Issuer was not an authorised person, apply to the Issuer.

The Dealer is required to comply with all applicable provisions of the FSMA with respect to anything done by it in relation to the Securities in, from or otherwise involving the United Kingdom.

European Economic Area

This Base Prospectus has been prepared on the basis that, except to the extent sub-paragraph (ii) below may apply, any offer of Securities in any Member State of the European Economic Area which has implemented the Prospectus Directive (each, a "**Relevant Member State**") will be made pursuant to an exemption under the Prospectus Directive, as implemented in that Relevant Member State, from the requirement to publish a prospectus for offers of Securities. Accordingly any person making or intending to make an offer in that Relevant Member State of Securities which are the subject of an offering contemplated in this Base Prospectus as completed by final terms in relation to the offer of those Securities may only do so (i) in circumstances in which no obligation arises for the Issuer or any Dealer to publish a prospectus pursuant to Article 3 of the Prospectus Directive or supplement a prospectus pursuant to Article 16 of the Prospectus Directive in relation to such offer, or (ii) if a prospectus for such offer has been approved by a competent authority and, where appropriate, notified to the competent
